F0000	INITIAL COMMENTS An unannounced Complaint survey was conducted at this facility from October 28, 2025 through October 30, 2025. The facility census on the first day of the survey was 167. The survey sample totaled nine (9) residents. The survey process included observations, interviews, review of residents' clinical records and other documentation as indicated. Due to the federal government shutdown, the posting date of this CMS-2567 differs from the survey exit date. This adjustment allows the facility the appropriate time to prepare and submit its Plan of Correction (PoC). The discrepancy between the exit date and posting date is administrative in nature and does not reflect any delay by the facility. No deficiencies were identified during the survey.			F0000			

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See reverse for further instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
