A 084	Continued From page 3 the minimum requirements of this additional training. This Statute or Rule is not met as evidenced by: Based on personnel record reviews and interview, the facility failed to ensure that 1 of 2 sampled staff (B) who assisted with self-administered medications, received the initial required training from a registered nurse or licensed pharmacist. Findings: Unlicensed caregiver B was hired on and assisted residents with self-administered medications. Her personnel record contained a 4-hour certificate of training on assisting with self-administration of medications, dated however, the trainer's signature did not contain credentials to indicate they were either a registered nurse or licensed pharmacist. On at 3:15 p.m. the resident care coordinator confirmed that caregiver B does assist with medications. At 3:30 p.m., the human resource director said he called the school where the training was received and said the trainer was an administrator and not a registered nurse or licensed pharmacist. Photographic evidence obtained. Class III	A 084
