(e) Any plan approved by the local emergency management agency is considered to have met all the criteria and conditions established in this rule. This Statute or Rule is not met as evidenced by: Based on observation, record review and staff interview, the facility failed to provide a current CEMP Comprehensive Emergency Management Preparedness Plan approved by the local Emergency Management Division. The findings included: On _____, the facility's CEMP was requested from the Administrator for review. Review revealed an approval letter by the local County Authorities dated _____, states it is valid until _____. The facility failed to submit a new plan to the local Emergency Management officials for review and approval annually. The facility is required to submit the new plan 60 days prior to the expiration date of _____. The facility previously used portable generators as an alternative source of energy in the event of a power outage. Currently, the facility has a fixed generator operated by propane installed. The facility's emergency plan needs to reflect the accurate type of alternative source of energy that will be used in the event of a loss of power. The Administrator was present during the survey and confirmed the findings and no further information or documentation provided to review.	A 181

Each assisted living facility shall prepare a detailed plan ("plan") to serve as a supplement to its Comprehensive Emergency Management Plan, to address emergency environmental control in the event of the loss of primary electrical power in that assisted living facility which includes the following information: (a) The acquisition of a sufficient alternate power source such as a generator(s), maintained at the assisted living facility, to ensure that current licensees of assisted living facilities will be equipped to ensure air temperatures will be maintained at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. 1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain residents safely at all times and that is appropriate for resident care needs and life safety requirements. For planning purposes, no less than twenty (20) net square per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed capacity as the number of residents to be used in the to determine the required square footage.
