A 000	Initial Comments A complaint investigation (complaint numbers 2020001011 and 2020002702) was conducted at Oak Tree Manor on . Deficiencies were identified at the time of the survey.	A 000		
A 025 SS=D	429.26(7) FS; 59A-36.007(1) FAC Resident Care - Supervision 429.26 (7) The facility must notify a licensed physician when a resident exhibits signs of or or has a change of condition in order to rule out the presence of an underlying physiological condition that may be contributing to such or . The notification must occur within 30 days after the acknowledgment of such signs by facility staff. If an underlying condition is determined to exist, the facility shall arrange, with the appropriate health care provider, the necessary care and services to treat the condition. 59A-36.007 An assisted living facility must provide care and services appropriate to the needs of residents accepted for admission to the facility. (1) SUPERVISION. Facilities must offer personal supervision as appropriate for each resident, including the following: (a) Monitoring of the quantity and quality of resident diets in accordance with rule 59A-36.012, F.A.C. (b) Daily observation by designated staff of the activities of the resident while on the premises, and awareness of the general health, safety, and physical and emotional well-being of the resident. (c) Maintaining a general awareness of the resident's whereabouts. The resident may travel independently in the community.	A 025

A 200	Continued From page 3 for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. 1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain residents safely at all times and that is appropriate for resident care needs and life safety requirements. For planning purposes, no less than twenty (20) net square . . . per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed capacity as the number of residents to be used in the to determine the required square footage. This may include areas that are less than the entire assisted living facility if the assisted living facility's comprehensive emergency management plan includes allowing a resident to congregate when he or she desires in portions of the building where temperatures will be maintained and includes procedures for monitoring residents for signs of heat related injury as required by this rule. This rule does not prohibit a facility from acting as a receiving provider for evacuees when the conditions stated in section 408.821, F.S. and subsection 59A-36.019(5), F.A.C., are met. The plan shall include information regarding the area(s) within the assisted living facility where the required temperature will be maintained. 2. The alternate power source and fuel supply shall be located in an area(s) in accordance with local zoning and the Florida Building Code. 3. Each assisted living facility is unique in size; the types of care provided; the physical and mental capabilities and needs of residents; the type, frequency, and amount of services and care offered; and staffing characteristics. Accordingly, this rule does not limit the types of systems or equipment that may be used to achieve	A 200
