This information was not submitted on the following days: _____ and _____. Photographic evidence was obtained. An interview was conducted with the Administrator on _____ at 2:05 pm. She reviewed the ESS data again and confirmed the missed days for census submissions. The Administrator stated she thought when she selected the "save" button at the end of the "additional information" tab, the system automatically saved the facility's information under the "census" tab too. She admitted she did not select "save" after daily review of the census fields if it had not changed from the previous day. The Administrator acknowledged the requirement for, and importance of, daily census reporting. Pursuant to the Governor's Executive Order 20-51, and at the direction of State Surgeon General regarding Novel Coronavirus (COVID-19), the Agency for Health Care Administration opened the event "COVID-19 Monitoring" in the Emergency Status System to monitor assisted living facilities census, inventory, needs, and other related information statewide. All assisted living facilities were required to report current resident census and available beds in their facilities daily by 10:00 a.m. and answer additional questions related to the facility status and COVID-19.
