{A 008}	Continued From page 5 Findings: On, at 10:40 AM, a review of Resident #6's resident records was conducted and revealed that the Resident Health Assessment, dated, was incomplete. The "Activities of Daily Living" section on Page 2 of the Resident Health Assessment shows that Resident #6 required supervision while eating, and also required assistance with bathing, self-care (grooming), toileting, and transferring. The Resident Health Assessment did not include any comments to explain the type and extent of supervision or assistance that Resident #6 required for these activities. On, at 12:20 PM, during an interview with the Administrator, she confirmed that the Resident Health Assessment for Resident #6 was missing required information. The Administrator confirmed that she did not notice that the Resident Health Assessment was incomplete when she received it, and she should have checked it more carefully to ensure it had been completed correctly.
