CZ815	Continued From page 17 Findings included: A review of the facility's BGS roster, staff members A, C, D and E were not listed as staff that received an initial level II BGS to be eligible to provide direct care services to residents in the facility. Review of the facility staff records indicated that there were no documented BGS results for staff members A, C, D and E to represent their eligibility to provide direct care services for the residents in the facility. In an interview with the administrator on at 11:35am, he stated that staff members D and E were presently unpaid volunteers who provided direct resident care and some administrative work. He stated that staff members A, C, D and E were presently all caregivers who provided direct resident care services in the facility, which included assistance and/or supervision with resident activities of daily living. He stated that the facility did not presently maintain any records for these staff members, which included not having these staff members' level II BGS to determine their eligibility to provide direct resident care in the facility.
