A 000	Initial Comments An unannounced Relicensure, Focused Control, and Generator Assessment survey was conducted at Jubilee Assisted Living Of Florida LLC on The facility had deficiencies identified at the time of the survey.	A 000		
A 078 SS=D	59A-36.010(2) FAC Staffing Standards - Staff (2) STAFF: (a) Within 30 days after beginning employment, newly hired staff must submit a written statement from a health care provider documenting that the individual does not have any signs or symptoms of communicable The examination performed by the health care provider must have been conducted no earlier than 6 months before submission of the statement. Newly hired staff does not include an employee transferring without a break in service from one facility to another when the facility is under the same management or ownership. 1. Evidence of a negative examination must be documented on an annual basis. Documentation provided by the Florida Department of Health or a licensed health care provider certifying that there is a shortage of testing materials satisfies the annual examination requirement. An individual with a positive test must submit a health care provider's statement that the individual does not constitute a risk of 2. If any staff member has, or is suspected of having, a communicable, such individual must be immediately removed from duties until a written statement is submitted from a health care provider indicating that the individual does not constitute a risk of transmitting a communicable	A 078

A 078	Continued From page 1 (b) Staff must be qualified to perform their assigned duties consistent with their level of education, training, preparation, and experience. Staff providing services requiring licensing or certification must be appropriately licensed or certified. All staff must exercise their responsibilities, consistent with their qualifications, to observe residents, to document observations on the appropriate resident's record, and to report the observations to the resident's health care provider in accordance with this rule chapter. (c) All staff must comply with the training requirements of rule 59A-36.011, F.A.C. (d) An assisted living facility to provide services to residents must ensure that individuals providing services are qualified to perform their assigned duties in accordance with this rule chapter. The contract between the facility and the staffing agency or contractor must specifically describe the services the staffing agency or contractor will provide to residents. (e) For facilities with a licensed capacity of 17 or more residents, the facility must: 1. Develop a written job description for each staff position and provide a copy of the job description to each staff member; and, 2. Maintain time sheets for all staff. (f) Level 2 background screening must be conducted for staff, including staff by the facility to provide services to residents, pursuant to sections 408.809 and 429.174, F.S. This Statute or Rule is not met as evidenced by: Based on interview and record review, the facility failed to ensure that evidence of a negative () examination must be documented on an annual basis by a Healthcare Provider, for 1 of 2 sampled employee personnel records reviewed (Staff A). A 200	Continued From page 3 shall prepare a detailed plan ("plan") to serve as a supplement to its Comprehensive Emergency Management Plan, to address emergency environmental control in the event of the loss of primary electrical power in that assisted living facility which includes the following information: (a) The acquisition of a sufficient alternate power source such as a generator(s), maintained at the assisted living facility, to ensure that current licensees of assisted living facilities will be equipped to ensure air temperatures will be maintained at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. 1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain residents safely at all times and that is appropriate for resident care needs and life safety requirements. For planning purposes, no less than twenty (20) net square . . . per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed capacity as the number of residents to be used in the to determine the required square footage. This may include areas that are less than the entire assisted living facility if the assisted living facility's comprehensive emergency management plan includes allowing a resident to congregate when he or she desires in portions of the building where temperatures will be maintained and includes procedures for monitoring residents for signs of heat related injury as required by this rule. This rule does not prohibit a facility from acting as a receiving provider for evacuees when the conditions stated in section 408.821, F.S. and subsection 59A-36.019(5), F.A.C., are met. The plan shall include information regarding the area(s) within	A 200

A 200	Continued From page 4 the assisted living facility where the required temperature will be maintained. 2. The alternate power source and fuel supply shall be located in an area(s) in accordance with local zoning and the Florida Building Code. 3. Each assisted living facility is unique in size; the types of care provided; the physical and mental capabilities and needs of residents; the type, frequency, and amount of services and care offered; and staffing characteristics. Accordingly, this rule does not limit the types of systems or equipment that may be used to achieve temperatures at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. The plan shall include information regarding the systems and equipment that will be used by the assisted living facility and the fuel required to operate the systems and equipment. a. An assisted living facility in an evacuation zone pursuant to chapter 252, F. S. must maintain an alternative power source and fuel as required by this subsection at all times when the assisted living facility is occupied but is permitted to utilize a mobile generator(s) to enable portability if evacuation is necessary. b. Assisted living facilities located on a single campus with other facilities under common ownership, may share fuel, alternative power resources, and resident space available on the campus if such resources are sufficient to support the requirements of each facility's residents, as specified in this rule. Details regarding how resources will be shared and any necessary movement of residents must be clearly described in the emergency power plan. c. A multistory facility, whose comprehensive emergency management plan is to move residents to a higher floor during a flood or surge	A 200
