Resident's bed had attached a full bed rail in upright position. At 8.45 observed a CNA (Certified Nursing Assistant) from Hospice who arrived to facility to assist Resident #4 with bathing.</p> <p>Review of Resident #4's progress notes showed the resident had been admitted under Hospice care on due to physical decline.</p> <p>A review of Resident # 4's records showed there was no documentation of a new health assessment completed by a healthcare professional showing the resident's change in condition and admission into hospice care. The facility had no hospice plan of care showing the resident's condition, the type of care the resident needed or the type of care she was receiving from Hospice.</p> | {A 162}                                                                        |                                                                                                                          |                          |                                                                    |
