A 152	Continued From page 14 lock on there, but the fire department stated that it could not be on there because someone could get locked inside so they removed it. At this time the door to the boiler room was observed to be unlocked and was pointed out to the administrator. The administrator stated, "This room should be locked also when no one is in it." On , at approximately 10:30 AM, a follow up observation was made of the electrical room. It was noted that a glass/plastic doorknob was on the door, but the door remained unlocked, and no locking mechanism was noted on the doorknob. On at approximately 10:45 AM, a second observation of the boiler room was made. The door remained unlocked at this time. Class III	A 152
