{A 052}	Continued From page 3 and spoons. Trained staff may also return unused doses to the medication container. Medication, which appears to have been contaminated, must not be returned to the container. (d) Trained staff must observe the resident take the medication. Any concerns about the resident's reaction to the medication or suspected noncompliance must be reported to the resident's health care provider and documented in the resident's record. (e) When a resident who receives assistance with medication is away from the facility and from facility staff, the following options are available to enable the resident to take medication as prescribed: 1. The health care provider may prescribe a medication schedule that coincides with the resident's presence in the facility, 2. The medication container may be given to the resident, a friend, or family member upon leaving the facility, with this fact noted in the resident's medication record, 3. The medication may be transferred to a pill organizer pursuant to the requirements of subsection (2), and given to the resident, a friend, or family member upon leaving the facility, with this fact noted in the resident's medication record, or 4. Medications may be separately prescribed and dispensed in an easier to use form, such as unit dose packaging. (f) Assistance with self-administration of medication does not include the activities detailed in Section 429.256(4), F.S. (g) As used in Section 429.256(4)(h), F.S., the terms "judgment" and "discretion" mean interpreting vital signs and evaluating or assessing a resident's condition. {A 052}	Continued From page 4 control policy and procedures when assisting with the self-administration of medication. This Statute or Rule is not met as evidenced by: Based on interview and record review, the facility failed to ensure that three (Residents #2, #5, and #6) of three residents who received assistance with self-administration of medications was provided this assistance in accordance with regulation. Findings included: An observation on beginning at 9:20 a.m. of assistance with self-administration of medication for Resident # 5 and #6. Staff E, Medication Technician (med tech), did not read label and dispense medication in presence of resident. An observation on at approximately 10:20 a.m. of assistance with self-administration of medication for Resident # 2, Resident Care Director administered medication an hour and 20 minutes after the ordered time. An interview on at approximately 10:10 a.m. with the Administrator she stated she was unaware Resident #2 had not received medication on time and that the med tech did not read the label or dispense the medication in front of the residents.
