A 054	Continued From page 1 This Statute or Rule is not met as evidenced by: Based on record review and interview, the facility failed to maintain an accurate Medication Observation Record (MOR) that included each time the medications were offered or administered and the name of the resident's health care provider and the health care provider's telephone number for one out of six sampled residents (Resident #4). Findings included: A review of Resident #4's medication observation record (MOR) showed that it was initiated for the 7:00 AM doses that included 2 MG Tab, 10 MG Tab, and 2 MG Tab, except for 20 MG Tab. Further review revealed that the MOR did not include the name of the resident's health care provider and the health care provider's telephone number. Medication reconciliation for Resident #4 revealed that the evening medications scheduled for were not in the package and the morning medications for the same day were still in the package. On at 12:30 PM, the Administrator stated that the Owner gave the medications in the morning and seemed that she gave to Resident #4 the evening medications instead of the morning medications.
