A 200	Continued From page 14 2. Upon final implementation of the plan by the assisted living facility. (b) Each assisted living facility must maintain a copy of each notification set forth in paragraph (a) above in a manner that makes each notification readily available at the licensee's physical address for review by a legally authorized entity. If the notifications are maintained in an electronic format, facility staff must be readily available to access and produce the notifications. For purposes of this section, "readily available" means the ability to immediately produce the notifications, either in electronic or paper format, upon request. This Statute or Rule is not met as evidenced by: Based on facility's documentation and interview, the facility failed to complete and document monthly testing of the alternate power source, portable generator to ensure that it works properly in the event of loss of power. Facility: Reviewed the facility's generator log, and no evidence of any monthly testing was completed and not documented. On at 3 PM, an interview with the Administrator confirmed the finding and further stated that her husband just tested and checked the portable generator working, a few days ago on but did not know she had to document every month.
