A 054	Continued From page 1 medication. This Statute or Rule is not met as evidenced by: Based on record review and interview the facility failed to ensure the Medication Observation Record (MOR) was complete and did not contain errors or omissions for 3 of 4 residents sampled. (#3, #6, and #7) Findings: On at 11am an interview with unlicensed caregiver B was conducted. During the interview she said residents #6 and #7 were missing medications for the 9am med pass. Review of the MOR for resident #6 found was signed as given for 9am dose by unlicensed caregiver B. Review of the MOR for resident #7 found was signed as given for 9am dose by unlicensed caregiver B. On at 1:05pm in an interview unlicensed caregiver B confirmed the medications were definitely not given because they were not available for 9am medication pass. She said she did not know why it did not say unavailable on the MOR. She thought she documented on the MOR A review of resident #3 MOR's for and found she had an order from her health care provider for checks two times daily at 8am. The MOR contained omissions on , 7, 8, 9, 10, 11, 19, 29, and 30. The MOR had omissions on , 5, 18, and 21.	A 054

A 200	Continued From page 6 Management Plan, to address emergency environmental control in the event of the loss of primary electrical power in that assisted living facility which includes the following information: (a) The acquisition of a sufficient alternate power source such as a generator(s), maintained at the assisted living facility, to ensure that current licensees of assisted living facilities will be equipped to ensure _____ air temperatures will be maintained at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. 1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain residents safely at all times and that is appropriate for resident care needs and life safety requirements. For planning purposes, no less than twenty (20) net square _____ per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed capacity as the number of residents to be used in the _____ to determine the required square footage. This may include areas that are less than the entire assisted living facility if the assisted living facility's comprehensive emergency management plan includes allowing a resident to congregate when he or she desires in portions of the building where temperatures will be maintained and includes procedures for monitoring residents for signs of heat related injury as required by this rule. This rule does not prohibit a facility from acting as a receiving provider for evacuees when the conditions stated in Section 408.821, F.S. and subsection 59A-36.019(5), F.A.C., are met. The plan shall include information regarding the area(s) within the assisted living facility where the required temperature will be maintained.	A 200
