A 025	Continued From page 1 59A-36.012, F.A.C. (b) Daily observation by designated staff of the activities of the resident while on the premises, and awareness of the general health, safety, and physical and emotional well-being of the resident. (c) Maintaining a general awareness of the resident's whereabouts. The resident may travel independently in the community. (d) Contacting the resident's health care provider and other appropriate party such as the resident's family, guardian, health care surrogate, or case manager if the resident exhibits a significant change. (e) Contacting the resident's family, guardian, health care surrogate, or case manager if the resident is discharged or moves out. (f) Maintaining a written record, updated as needed, of any significant changes, any illnesses that resulted in medical attention, changes in the method of medication administration, or other changes that resulted in the provision of additional services. This Statute or Rule is not met as evidenced by: Based on observation, record review and interview, the facility failed to offer personal supervision as appropriate for each resident, including Resident #1. The facility failed to maintain a daily observation of Resident #1's safety while on the premises and awareness of general health. Findings: Observation on at 11:29 AM Staff C (Caregiver) alone with Residents #1 and Resident #2. Observation on at 12:16 PM Staff C	A 025

A 025	Continued From page 2 assisted Resident #2 in a wheelchair to the bathroom. Observation on at 12:17 PM Resident #1 walked into the kitchen unassisted and unsupervised, accessed a sharp silver knife from the drawer, picked up a mango and peeled it while in her at the dinner table. A review of Resident #1's urgent care reported dated showed a date of birth of and a diagnosis of and right . The Cleveland Clinic states: "A is a clouding of the lens of the , which is typically clear. For people who have , seeing through cloudy lenses is like looking through a frosty or fogged-up window. Clouded vision caused by can make it more difficult to read, drive a car at night or see expression on a friend's ." Interviewed on at 1:03 PM the Owner stated that she thinks Resident #1 suffered from . The Owner stated further that the employee was assisting another resident in the bathroom. Interviewed on at11:51 AM on when asked if he knew the diagnoses of Resident #1 the Owner stated that he thinks she suffered from . Aging In Place states: "Kitchen safety is one of the most important types of home safety to practice for the elderly, next to bathroom safety. The kitchen can be very dangerous place for anyone, but for those 65 and older, it is even more so. This is, in part, due to the fact that a person's responses and physical abilities diminish	A 025
