During an interview on at 2:30om at the Administrator stated that the company that services the fire alarm said that the facility did not need a monoxide detector because there was "no heat" at the facility. A review of an informational leaflet distributed to the publy by the Centers for Control, "Portable -up generators produce the poison gas monoxide (CO). CO is an odorless, colorless gas that kills without warning. It claims the lives of hundreds of people every year and makes thousands more ill. Follow these steps to keep your family safe.PORTABLE GENERATORS: Never use a generator inside your home or garage, even if doors and windows are open. Only use generators outside, more than 20 away from your home, doors, and windows. CO DETECTORS. Install battery-operated or battery -up CO detectors near every sleeping area in your homeCheck CO detectors regularly to be sure they are functioning properly." Class III	A 200
