A 052	Continued From page 14 into the medicine cup. The resident administered the medications without any assistance. The Administrator updated the medication observation record (MORS) and returned the medication to the med cart. There was no hygiene performed after the med pass. Review of resident #1's 1823 health assessment indicated needs assistance with self-administration of medications. On at 12:48 PM, observation revealed the Administrator did not perform proper hygiene before, during, or after the medication pass for resident #1 and #3. The medications were retrieved from the medication cart located in the Administrator's office. The Administrator returned to the dining room table stating resident #1 and #3 has one medication each at noon. The Administrator did not perform hygiene before stating the name, dose of the medication and pre-popped into the medicine cup for resident #1. There was no hygiene performed before moving to the other side of the table where resident #3 was sitting to prepare his medication pass. She stated the name and dose of his medication and pre-popped into his medicine cup. The residents administered their medications without any assistance. Afterwards, the Administrator updated the MORs for both residents and returned the medications to the medication cart in her office. She did not perform hygiene after completing the med pass. Review of resident #3's 1823 health assessment indicated needs assistance with self-administration of medications.	A 052
