0165-Risk Mgmt & QA; Adverse Incident Report 429.23 FS; 58A-5.0241 FAC
Based on observation, interview and record review, the facility failed to complete an adverse incident report for an event which was reported to law enforcement for 1 out of 5 residents sampled (Resident #5).

The findings include:

1. An interview was conducted with the Administrator on _____ at 9:00 A.M., she stated there was an incident on _____. She stated that Resident #5 signed himself out of the facility. She stated that Resident #5 did not return during the evening and she contacted the police. She stated that the police located the Resident #1 on _____ at a motel in Gainesville, Florida. The administrator stated that she did not file an adverse incident report with the state.
2. An interview was conducted with Resident #5 on _____ at 10:20 A.M., he stated that he likes to go shopping and would ask strangers to give him a ride into town. He stated that he wanted to go to the bank and he asked a young man to take him to Gainesville. He stated that he paid the young man to take him to Gainesville.
3. An interview was conducted with the Alachua County Sheriff Deputy on _____ at 2:20 P.M., he stated that Resident #5 was found at America's Best Value Inn in Gainesville, Florida. He stated Resident #5 was found in a wheelchair. He stated that the resident complained that he had not eaten and was hungry. He stated that the resident was taken to a local hospital for evaluation and the ALF (Assisted Living Facility) picked the resident up afterwards.
4. A review of facility incident report indicated that Resident #5 signed himself out of the facility and asked a young man he met on the street to give him a ride to get money in his ATM (automatic teller machine). He did not return that evening and the administrator reported the incident to the police.
