Dear Administrator:

This letter reports the findings of a state licensure survey that was conducted on , 2014 by representative(s) of this office.

Enclosed is the provider's copy of the State (5000-3547) Form, which indicates the deficiencies that were identified on the day of the visit. Section 408.811(4), Florida Statutes, requires that you correct these deficiencies within thirty days of the date of this letter unless the Agency has approved another timeframe. On 07/10/2014, an unannounced complaint survey CCR # 2014004279 was conducted at Parkside Assisted Living in Starke, Florida. Deficient practice was identified during the complaint survey. The facility is not in compliance.

0078-Staffing Standards - Staff 58A-5.019(2) FAC

Based on interview and record review, the facility failed to ensure 6 of 6 employees currently working in the facility had annual evidence of a negative skin examination from a health care provider (Staff A, B, D, E, H and I).

Findings:

1. Interview with the Administrator on 07/10/2014 at 9:30 AM stated that the facility pays the Health Department to complete all their employees' annual skin tests or assessments. She is aware that the annual clearance requirement is required annually and must be in the employee files.
2. A review of the Staff A's record revealed Staff A was hired on 07/10/2014. Further review revealed Staff A had an assessment completed by a nurse on 07/10/2014. The assessment reads, "This person has completed a risk assessment that includes questions about his/her medical history and about symptoms that may indicate skin cancer." The bottom of the assessment reads, "Based on these guidelines and the assessment done on this person, at this time there is no indication that the above named person needs a Skin Test for skin cancer." The assessment is signed by a nurse and not by a health care provider.
3. A review of Staff B's record revealed Staff B was hired on 07/10/2014. Further review revealed Staff B's last documentation of freedom from skin cancer was conducted on 07/10/2014. Staff B did not have evidence of a (negative) skin examination for any time thereafter.
4. A review of Staff D's employee record revealed Staff D was hired on 07/10/2014. Further review revealed Staff D's last skin examination was conducted on 07/10/2014, more than six months before she was hired at the facility.
5. A review of the Staff E's record revealed Staff E was hired on 07/10/2014. Continued review revealed Staff E's last skin examination was conducted on 07/10/2014. The requirement is not met.
