RE: CCR #2016003728

Dear Administrator:

This letter reports the findings of a state licensure survey that was conducted on , 2016 by representatives of this office. Attached is the provider's copy of the State (5000-3547) Form, which indicates the deficiency identified on the day of the visit. Section 408.811(4), Florida Statutes, requires that you correct these deficiencies within thirty days of the date of this letter unless the Agency has approved another timeframe. **Please attach a summary of your corrective action for each deficiency, including completion dates, on your letterhead. Also include any additional documentation to support correction of identified deficiencies. Submit summary and documents to the Field Office no later than , 2016.** Staff from this office will conduct a review of the provided corrective action and supporting documentation to verify that the necessary corrections are in place to correct the deficiencies identified on your survey, which may include a desk review or onsite revisit.

The Quality Assurance Questionnaire has long been employed to obtain your feedback following survey activity. This form has been placed on the Agency's website at http://ahca.myflorida.com/Publications/Forms.shtml as a first step in providing a web-based interactive consumer satisfaction survey system. You may access the questionnaire through the link under Health Facilities and Providers on this page. Your feedback is encouraged and valued, as our goal is to ensure the professional and consistent application of the survey process.

Thank you for the assistance provided to the surveyors. Should you have any questions please call me at 850-412-4540.

Sincerely,

Donan Heiberg
Field Office Manager

An unannounced complaint survey for CCR 2016003728 was conducted at Watermark of Gulf Breeze license number 9664 on / . Deficient practice was found at the time of the survey.

0030 Resident Care - Rights & Facility Procedures

Based on observation , staff interview, and record review the facility failed to maintain a safe, and clean environment for residents residing on the locked unit: floors for 2 of 11 (and 324) were found to be sticky causing shoes to adhere to the floor, an odor was observed in the unit, and 1 of 3 residents(#8) was observed to be in unsafe position in the bed.

The findings are:

An initial tour was conducted at 9:10 am on / / . The unit was observed to have an unpleasant odor smelling like ammonia). Continued observations of the unit throughout the day the odor remained. During tour was observed to have a sticky floor. This surveyor's shoes were sticking to the floor.
On / at approximately 11:31 the Director of Nursing (DON) was asked about the odors on the unit but she stated she did not smell anything. We went into and she confirmed the floor was sticky.

On / / at approximately 2:10 pm an observation was made of resident # 8 with surveyor. She was observed lying in the bed with her left leg tangled through a side rail on the bed. The side rail is positioned halfway the length of the bed. The bed was also observed to be in the highest position.

Employee E Licensed Practical Nurse (LPN) was brought to observe resident #8. She confirmed that her left leg was caught in the side rail. She also said the bed should be lower.

An observation of the memory care unit was conducted on / at 10:15 AM. There was a strong foul odor noted upon entry. This odor remained at the second observation on / at 2:10 PM.
An observation of 321 and 324 was conducted on / at 2:10 PM. The tile flooring in both were sticky when walked upon.
