Class III

0093 - Food Service - Dietary Standards - 58A-5.020(2) FAC

Based on observation of the facility's emergency nonperishable food supply and interview with the facility's kitchen manager, the facility failed to keep on a 3-day supply of nonperishable food that can be kept safely without refrigeration for their current census of 108 residents.

The findings were:

On at approximately 2:00pm the facility's kitchen manager led a tour of the facility's dry storage and nonperishable items. Observed were several cans of food including beans, pie filing, green beans, beets, sweet potatoes, tomato sauce, oatmeal, pancake batter, pudding cups, and bagged dry pasta. When asked to demonstrate what protein a meal would consist of the kitchen manager stated that he would use beans as a protein. According to the labels on the cans of beans there were only 100 servings of beans available. When asked what would be the protein source for the next meal the facility's kitchen manager stated there was nothing else. Random selection of several items stored
