A 052	Continued From page 14 assisted 1 resident (#5) with self-administration of medications followed the correct procedure. Findings: Observations on at 1220 PM noted that staff A took the medications from the locked cabinet. She directed the resident to the administrator's office. She realized that she did not bring water for the resident. She walked out of the office and left the medications on top of table/desk and went to get water. She had a paper with her that listed the steps when assisting resident with medications. She observed her take the medications, signed the Medication Observation Record (MOR) and secured the medications. In an interview with the administrator on at 12:30 PM who said the staff was nervous and she had left the medications in the room with the Agency representative. It was explained that the facility is the custodian of the medications and should never leave them unattended. As for the sheet of paper the staff had, it was guidelines that she wrote for the staff to follow when they assist with medications. Class III	A 052

A 200	Continued From page 33 shall prepare a detailed plan ("plan") to serve as a supplement to its Comprehensive Emergency Management Plan, to address emergency environmental control in the event of the loss of primary electrical power in that assisted living facility which includes the following information: (a) The acquisition of a sufficient alternate power source such as a generator(s), maintained at the assisted living facility, to ensure that current licensees of assisted living facilities will be equipped to ensure air temperatures will be maintained at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. 1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain residents safely at all times and that is appropriate for resident care needs and life safety requirements. For planning purposes, no less than twenty (20) net square . . . per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed capacity as the number of residents to be used in the to determine the required square footage. This may include areas that are less than the entire assisted living facility if the assisted living facility's comprehensive emergency management plan includes allowing a resident to congregate when he or she desires in portions of the building where temperatures will be maintained and includes procedures for monitoring residents for signs of heat related injury as required by this rule. This rule does not prohibit a facility from acting as a receiving provider for evacuees when the conditions stated in Section 408.821, F.S., and subsection 58A-5.026(5), F.A.C., are met. The plan shall include information regarding the area(s) within	A 200
