Therapeutic diets must meet these nutritional standards to the extent possible.</p> <p>(b) The residents' nutritional needs must be met by offering a variety of meals adapted to the food habits, preferences, and physical abilities of the residents, and must be prepared through the use of standardized recipes. For facilities with a licensed capacity of 16 or fewer residents, standardized recipes are not required. Unless a resident chooses to eat less, the facility must serve the standard minimum portions of food according to the Dietary Reference Intakes.</p> <p>(c) All regular and therapeutic menus to be used by the facility must be reviewed annually by a licensed or registered dietitian, a licensed nutritionist, or a registered dietetic technician supervised by a licensed or registered dietitian, or a licensed nutritionist to ensure the meals meet the nutritional standards established in this rule. The annual review must be documented in the facility files and include the original signature of the reviewer, registration or license number, and date reviewed. Portion sizes must be indicated on the menus or on a separate sheet.</p> <p>1. Daily food servings may be divided among three or more meals per day, including snacks, as necessary to accommodate resident needs and preferences.</p> <p>2. Menu items may be substituted with items of comparable nutritional value based on the seasonal availability of fresh produce or the preferences of the residents.</p> | A 093                                                                          |                                                                                                                          |  |                                                        |

| A 093                    | <p>Continued From page 15</p> <p>(d) Menus must be dated and planned at least 1 week in advance for both regular and therapeutic diets. Residents must be encouraged to participate in menu planning. Planned menus must be conspicuously posted or easily available to residents. Regular and therapeutic menus as served, with substitutions noted before or when the meal is served, must be kept on file in the facility for 6 months.</p> <p>(e) Therapeutic diets must be prepared and served as ordered by the health care provider.</p> <p>1. Facilities that offer residents a variety of food choices through a select menu, buffet style dining, or family style dining are not required to document what is eaten unless a health care provider's order indicates that such monitoring is necessary. However, the food items that enable residents to comply with the therapeutic diet must be identified on the menus developed for use in the facility.</p> <p>2. The facility must document a resident's refusal to comply with a therapeutic diet and provide notification to the resident's health care provider of such refusal.</p> <p>(f) For facilities serving three or more meals a day, no more than 14 hours must elapse between the end of an evening meal containing a protein food and the beginning of a morning meal. Intervals between meals must be evenly distributed throughout the day with not less than 2 hours nor more than 6 hours between the end of one meal and the beginning of the next. For residents without access to kitchen facilities, snacks must be offered at least once per day. Snacks are not considered to be meals for the purposes of _____ the time between meals.</p> <p>(g) Food must be served attractively at safe and palatable temperatures. All residents must be encouraged to eat at tables in the dining areas. | A 093                    | <p>Continued From page 16</p> <p>supply of eating ware sufficient for all residents, including adaptive equipment if needed by any resident, must be on . . . . .</p> <p>(h) A 3-day supply of nonperishable food, based on the number of weekly meals the facility has with residents to serve, must be on . . . . . at all times. The quantity must be based on the resident census and not on licensed capacity. The supply must consist of foods that can be stored safely without refrigeration. Water sufficient for drinking and food preparation must also be stored, or the facility must have a plan for obtaining water in an emergency, with the plan coordinated with and reviewed by the local disaster preparedness authority</p> <p>This Statute or Rule is not met as evidenced by: Based on observation, and interview, the facility failed to ensure the required amount of emergency water was stored at the facility for a census of 5.</p> <p>The Findings Included:</p> <p>On . . . . . at approximately 10:40AM, the facility three day supply of emergency food and water was observed. The facility had 9 gallons of emergency water stored for a census of five residents. During an interview with the Administrator at this time, the Administrator stated the facility does not have a written contract with a water delivery service. She agreed she didn't have a 3 day supply of water for each resident.</p> <p>During an interview on . . . . . at approximately 2:15PM with the Administrator, she acknowledged the findings.</p> | A 093               |                                                                                                                          |                          |

| A 200                    | Continued From page 20<br><br>shall prepare a detailed plan ("plan") to serve as a supplement to its Comprehensive Emergency Management Plan, to address emergency environmental control in the event of the loss of primary electrical power in that assisted living facility which includes the following information:<br>(a) The acquisition of a sufficient alternate power source such as a generator(s), maintained at the assisted living facility, to ensure that current licensees of assisted living facilities will be equipped to ensure . . . . . air temperatures will be maintained at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power.<br>1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain residents safely at all times and that is appropriate for resident care needs and life safety requirements. For planning purposes, no less than twenty (20) net square . . . per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed capacity as the number of residents to be used in the . . . . . to determine the required square footage. This may include areas that are less than the entire assisted living facility if the assisted living facility's comprehensive emergency management plan includes allowing a resident to congregate when he or she desires in portions of the building where temperatures will be maintained and includes procedures for monitoring residents for signs of heat related injury as required by this rule. This rule does not prohibit a facility from acting as a receiving provider for evacuees when the conditions stated in Section 408.821, F.S., and subsection 58A-5.026(5), F.A.C., are met. The plan must include information regarding fuel source and fuel storage.<br>1. Facilities must store minimum amounts of fuel onsite as follows:<br>a. A facility with a licensed capacity of 16 beds or less must store 48 hours of fuel onsite.<br>b. A facility with a licensed capacity of 17 or more beds must store 72 hours of fuel onsite.<br>2. An assisted living facility located in an area in a declared state of emergency area pursuant to Section 252.36, F.S., that may impact primary power delivery must secure ninety-six (96) hours of fuel. The assisted living facility may utilize portable fuel storage containers for the remaining fuel necessary for ninety-six (96) hours during the period of a declared state of emergency.<br>3. Piped natural gas is an allowable fuel source and meets the onsite fuel supply requirements under this rule.<br>4. If local ordinances or other regulations limit the amount of onsite fuel storage for the assisted living facility's location, then the assisted living facility must develop a plan that includes maximum onsite fuel storage allowable by the ordinance or regulation and a reliable method to obtain the maximum additional fuel at least 24 | A 200               |                                                                                                                          |                          |

The procedures shall ensure that residents do not experience complications from fluctuations in air temperatures inside the facility. Procedures must address the care of residents occupying the facility during a declared state of emergency, specifically, a description of the methods to be used to mitigate the potential for heat related injury including:<br>1. The use of cooling devices and equipment;<br>2. The use of refrigeration and freezers to produce ice and appropriate temperatures for the maintenance of medicines requiring refrigeration;<br>3. Wellness checks by assisted living facility staff to monitor for signs of and heat injury; and,<br>4. A provision for obtaining medical intervention from emergency services for residents whose life safety is in jeopardy.<br>(b) Each assisted living facility shall maintain the written policies and procedures in a manner that makes them readily available at the licensee's physical address for review by a legally authorized entity. If the policies and procedures are maintained in an electronic format, assisted living facility staff must be readily available to access the policies and procedures and produce the requested information.
