A4060	Continued From page 1 Findings include: On 3/29/2026 the Illinois Department of Public Health (IDPH) received a report that R1, a resident of the establishment, had eloped during the night. During record review on 04/08/2026 at 10:45 AM the establishment's elopement policy was reviewed. This elopement policy did not include any interventions to prevent elopement, only what to do after an elopement has occurred. The establishment did not have any policies or procedures addressing residents that may wander. During record review on 4/08/2026 at 11:43 AM R1's progress notes were shown to corroborate the report that was sent to the Illinois Department of Public Health (IDPH). The day R1 returned to the building from her elopement, 3/29/2026, she was noted at 7:14 PM to have exit seeking behaviors. She was also noted to have exit seeking behaviors on 3/31/2026 and 4/7/2026. During record review on 4/08/2026 at 4:48 PM it was found that R5, a memory care resident of the establishment, had several instances of exit seeking documented in their progress notes. R5 had 11 episodes of exit seeking during February and March of 2026. During record review on 4/08/2026 at 4:53 PM it was found that R5's service plan, dated 3/18/2026, states he is anxious and exit seeking. During record review on 4/09/2026 at 9:47 AM it was found that R4, a memory care resident of the establishment, had progress notes that documented R4 was exit seeking.	A4060

A4060	Continued From page 2 During record review on 4/09/2026 at 9:50 AM it was found that R4's service plan, dated 2/23/2026, stated R4 is exit seeking. During an interview with E1 (Executive Director) on 4/08/2026 at 10:58 AM they stated, "Our cameras last show her in the building at 1:24 AM. The police and her family brought her back at 3:19 AM. She walked to [Local Gym]. [Local Gym] contacted the police. She had eloped from her son's house before so when the police ran her name, her son's contact information popped up in the system. The windows only opened up about 8 inches. We have had the windows adjusted now so that they don't open as wide. The window had a screen. She carried the screen with her down the street to the corner." During an interview with E2 (CNA) on 4/08/2026 at 4:07 PM they stated, "The last time I saw her was a little after 2:00 AM. She was really confused. She was asking "Where's my son?". I was really trying to comfort and calm her. She even asked, "Am I being held hostage here?" I said "No you aren't being held hostage. Your son will be here tomorrow and talk to management." That seemed to calm her down but then she said, "I'll find a way out of here one way or another." I had to do my rounds so I checked on my other residents. I went to check off my rounds in the book and the other girls said "[R1] got out!" We opened her apartment door and she wasn't in there. As soon as we realized she wasn't in there she came back with the police officers. So me and the officer looked in her room and figured out that she went out the window. They found her at [Local Gym] down the road. I'm so happy she wasn't hurt because that is a very busy road. The following night she calmed down. She is doing	A4060

A4060	Continued From page 3 better now. She did try to leave once with a family. I sat and talked with her. She was telling me about her property and animals and forestry. I just listen to her. I told her that her someone would be there tomorrow. That calmed her down. As long as she's talking, she's calm. The next night she slept well. She asked me if I lived here. I said that I did. I said "I like it here. There are nice people." And she said, "I'm starting to figure that out. That there are nice people." And she's been better. She is a very strong lady, strong physically. She is very fast. I think there is enough staff at night. The first night is going to be difficult but then they get used to it. It was the same with my mother. I think [R1] is appropriate for care here. The last few times I have worked with her she's been calm." During an interview with E1 (Executive Director) on 4/08/2026 at 1:40 PM they stated, "I haven't seen a separate wanderer or exit seeking prevention policy. Our owner is on a plane right now. They are usually pretty quick about getting back to me but..." An interview with E3 (CNA Supervisor) on 4/08/2026 at 3:30 PM went as follows: Surveyor: "How many residents do you have that wander or exit seek?" E3: "Well on 200 we have [R1]. On 100, [R4] & [R5] go up to the door and bang on it. Those are the only ones really."	A4060
