F 842	Continued From page 14 Findings: 1. On 9/26/23 the Department of Health received a complaint that Resident #154 was not receiving medications correctly and the residents eye drops were found in another resident's room. During a record review, Resident #154 was admitted on 9/21/23 with physician orders for Ketorolac Tromethamine Ophthalmic Solution Instill 1 drop in left eye two times a day for inflammation. Review of the electronic medication administration record (EMAR), it was noted that the medication was held on the evening of 9/21/23, administered on both day and evening shifts on 9/22/23 and 9/23/23 then held again for both day and evening shifts on 9/24/23 and day shift on 9/25/23. Further review of the medical record showed EMAR notes stating, on 9/21/23, 9/24/23 and 9/25/23 the eye drops were held due to awaiting delivery from pharmacy. A provider order sheet dated 9/25/23 states, "FYI: Patients daughter to bring in Ketorolac ophthalmic drops (0.5%) ... (Omnicare out of this medication)." Additionally, the pharmacy Proof of Delivery report states Resident #154's eye drops were delivered on 9/25/23. On 3/5/24 at 3:10 p.m., during an interview, the surveyor asked the Director of Nursing (DON) how the eye drops were administered on 9/22/23 and 9/23/23 when they were not delivered until 9/25/23, 4 days after admission. At this time, the DON confirmed inaccurate records. 2. Record review revealed Resident #111 was admitted to the facility on 8/10/23. The baseline	F 842
