F 880 SS=D	On 7/30/24, an unannounced on-site visit was conducted at Pinnacle of South Portland for the purpose of an investigation of complaints #ME00047186, #ME00048124, and #ME00048238. It was determined that Pinnacle of South Portland was not in substantial compliance with 42 CFR 483, Sub-part B-Requirements for Long Term Care Facilities. Infection Prevention & Control CFR(s): 483.80(a)(1)(2)(4)(e)(f) §483.80 Infection Control The facility must establish and maintain an infection prevention and control program designed to provide a safe, sanitary and comfortable environment and to help prevent the development and transmission of communicable diseases and infections. §483.80(a) Infection prevention and control program. The facility must establish an infection prevention and control program (IPCP) that must include, at a minimum, the following elements: §483.80(a)(1) A system for preventing, identifying, reporting, investigating, and controlling infections and communicable diseases for all residents, staff, volunteers, visitors, and other individuals providing services under a contractual arrangement based upon the facility assessment conducted according to §483.70(e) and following accepted national standards; §483.80(a)(2) Written standards, policies, and procedures for the program, which must include, but are not limited to:			F 880

TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 880	Continued From page 2 Based on observation, facility policy review, and interviews, a staff member (LPN#1) failed to follow the facility's "Infection and Prevention Policy and Update of 7/18/24." to prevent the introduction and spread of Coronavirus Infectious Disease 2019 (COVID-19) in the facility. Findings: On 7/30/24 at 7:45a.m., a surveyor entered the facility and observed signs stating that there were 5 (five) cases of COVID-19 in the facility and they were located on Unit 300. For staff to enter that unit a N-95 mask is required, and for care of a resident that is COVID-19 positive, full Personal Protective Equipment (PPE) is required including N-95, eye protection, gown, and gloves. On 7/30/24 at 8:05a.m. a surveyor observed LPN#1 enter room 310 to give a resident medication, LPN#1 was wearing only an N-95 mask, no other PPE was donned as per the facility policy. There was a sign on the door warning of respiratory precautions and a 3-drawer cabinet just to the right of the door filled with PPE. When LPN#1 she exited the room, she confirmed in an interview with the surveyor that the resident in the room was COVID-19 positive, and further stated that because she was only in the room briefly, she thought it was okay to only wear the N-95 mask, versus wearing the "full" PPE. On 7/30/24 at 8:15a.m. in an interview with the Director of Nursing, (DON) and the Infection Preventionist, the surveyor confirmed that all staff entering a room with a COVID-19 positive resident will wear "Full PPE - N95, face shield, gown, and gloves".
