During his/her skilled rehabilitation R35 was not able to complete the rehab program due to a decline in his/her health status and was subsequently discharged from skilled services on 10/15/23. Once discharged from skilled services the facility set a discharge date of 10/17/23. R35 was not given the choice to stay in this facility for his/her LTC needs. The facility initiated a facility-initiated discharge.</p> <p>On 10/16/23 at 2:30 p.m., during an interview with the Clinical Licensed Social Worker (CLSW), she stated R35 is scheduled to go to Bayview Manor, a residential organization, and R35 will be transported by ambulance as he/she is not able to sit in a wheelchair to be able to go by facility van, and discharge is set for 10/17/23. She stated R35 is leaving because he/she is no longer skilled, and he/she needs a long-term care bed.</p> | F 622                                                                      |                                                                                                                          |                            |                                                        |

There was no evidence that neurological checks were completed per facility post fall management policy and procedure. On 10/18/23 at approximately 2:15 p.m., in an interview with the DON and the RCL, the surveyor discussed not locating neurological checks in the resident's record.</p> <p>On 10/19/23 at 8 a.m., the DON and RCL confirmed that they were unable to locate any neurological checks post the resident's fall on 6/23/23.</p> <p>3. On 10/18/23 at 10:00 a.m. during a medication administration observation the Certified Nursing Assistant-Medications (CNA-M) administered 1 Senokot (a stimulant laxative used to treat constipation) 8.6 milligram (mg) tablet to R2. Upon review of R2's signed physician orders with a revision date of 10/11/23, the medication ordered was Sennosides-docusate sodium (Senokot-S) (a stimulant laxative with a stool softener to treat constipation) tablet 8.6-50 mg give 1 tablet by mouth one time a day for constipation with an order date of 2/27/23.</p> <p>On 10/19/23 at 1:50 p.m. during an interview with the CNA-M, she stated that the reason she gave the Senokot 8.6 mg tablet instead of the Senokot-S 8.6-50 mg tablet was because she didn't think that R2 would take it as it was a different color from the medication he/she was used to taking.</p> <p>4. On 10/18/23, the facility Falls Management policy and procedure was reviewed. Under Section 5-#5.3-"any patient who sustains an injury to the head from a fall and/or has an unwitnessed fall will be observed for neurological abnormalities by performing neurological check, per policy."</p> | F 684                                                                      |                                                                                                                          |                            |                                                        |

The meal server did not sanitize his hands before starting to serve up plates. At 12:35 p.m., the surveyor observed the meal server contaminate his hands by touching a transport handle on the steam cart and wiping his hands on his pant legs while dishing food onto meal plates from the steam cart. The meal server did not wash his hands after contaminating them. The meal server then was observed touching the inside of the resident's meal plates with his contaminated thumb and fingers. The surveyor discussed this finding at the time of observation with the meal server.</p> <p>2.
