TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

KENNEBUNK CENTER FOR HEALTH AND REHABILITATION

RE: DHHS Notice of Survey Results and Enforcement letter dated 9/9/2024

Date: September 17, 2024 ATTACHMENT

F Tag 755 Plan of Correction

Controlled substances at the facility are being counted at each shift change and documented count correct by 2 authorized medication administration personnel, in the Narcotic control bound book.

House audit completed of active narcotic books to ensure no other narcotic count deficient practice.

The SDC/ designee has educated med administration personnel on protocol of completing physical inventory of controlled substances at shift change.

The DNS/designee will complete random narcotic count audits 2x/week for 1 month then random 1x/weekly x 2 months. The results of these audits will be reviewed with the QAPI committee to ensure compliance is maintained. The DNS is responsible for compliance.

F Tag 761 Plan of Correction

The facility has separate lock box for narcotics permanently affixed and stored in the medication refrigerator in the locked medication room.

House audit of medication refrigerator of permanently affixed locked box for refrigerated controlled substances to ensure no other deficient practice.

The SDC/designee has educated medication administration personnel on the controlled refrigerator permanently affixed lock box for controlled refrigerated narcotics.

The DNS/ designee will complete audits of controlled substance refrigerator lock box 3 x/ week for 1 month then weekly x 1 month. The results of these audits will be reviewed with the QAPI committee to ensure compliance is maintained. The DNS is responsible for compliance.

F 755	Continued From page 1 sufficient detail to enable an accurate reconciliation; and §483.45(b)(3) Determines that drug records are in order and that an account of all controlled drugs is maintained and periodically reconciled. This REQUIREMENT is not met as evidenced by: Based on record review, interviews, and facility policy, the facility failed to ensure that two people, who are authorized to administer medications, signed the Narcotic Bound Book Shift Count page indicating that they counted all the controlled substances at the change of shift for multiple shifts between 8/14/24 and 9/3/24 (total of 56 shifts) for 1 of 4 units reviewed for drug diversion (Sagamore). Findings: Review of the facility policy "Controlled Substances" dated "10/07" states: "At each shift change, a physical inventory of controlled medications, as defined by state regulation, is conducted by two licensed clinicians and is documented on an audit record." On 8/16/24, the Department of Licensing and Certification received a facility reported incident indicating during shift change on 8/16/24 at 16:00, a 30ml bottle of Ativan could not be located. Review of provided "Sagamore Unit shift count log" lacked documented evidence that a shift change count was conducted by two qualified staff on the following days 8/14/24 at 15:00 during oncoming shift. 8/15/25 at 23:00 during outgoing shift. F 755	Continued From page 2 8/16/24 at 07:00 during oncoming shift and at 15:00 for the outgoing shift. 8/27/24 at 07:00 during oncoming shift and at 23:00 for the outgoing shift 8/29/24 at 07:00 during oncoming shift and at 15:00 for the outgoing shift 9/1/24 at 24:00 during outgoing shift 9/2/24 at 23:00 during oncoming shift 9/3/24 there is no documentation of outgoing or oncoming shift Further review of the shift count log revealed "Status of count exact yes/no" space was left blank 42 of 56 shifts. On 9/3/24 at 9:00a.m., a surveyor and the Director of Nursing (DON) reviewed Sagamore Unit Narcotic Book. At this time the DON confirmed there is no documented evidence the shift count was completed for the above dates. She stated that it is her expectation that both people that have counted sign the log and that they enter a "Y" or a "N" for the count being correct or incorrect. She said that we have been doing audits and it is a common thing to find that there are not always two signature and that the "Y" or the "N" is not entered. On 9/3/24 at 9:45a.m., Licensed Practical Nurse (LPN) #1 stated that she came on duty this morning (9/3/24) at 7:00a.m., and did the shift count with the departing nurse, but neither of them signed the narcotic count. On 9/3/24 at 10:17a.m., LPN #2 stated that the correct change of shift count process is that there are always 2 sets of eyes on both the book and the medication, and that both nurses sign the book. F 761	Continued From page 4 storage of controlled drugs listed in Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1976 and other drugs subject to abuse, except when the facility uses single unit package drug distribution systems in which the quantity stored is minimal and a missing dose can be readily detected. This REQUIREMENT is not met as evidenced by: Based on observations, interviews, and record review the facility failed to provide a separately locked, permanently affixed compartments for storage of controlled drugs listed in Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1976 and other drugs subject to abuse for 1 of 1 observation. Findings: On 8/16/24, the Department of Licensing and Certification received a facility reported incident indicating during shift change on 8/16/24 at 16:00, a 30ml bottle of Ativan could not be located. On 9/3/24 at 9:15 a.m. while completing an investigation of missing Ativan, an observation of the locked refrigerator in the locked Medication Room, a surveyor observed that there was no separate, locked box that is attached to the refrigerator for storage of Controlled Substances. There was no controlled substances present at that time. On 9/3/24 at 11:00a.m. in an interview with the Director of Nursing, she stated that there had never been a separate locked box in that refrigerator.			F 761
