Store items with the earliest use-by or expiration date in front of items with later dates ... "</p> <p>On 11/12/2024 at 10:10 AM, during an observation of the initial tour of the kitchen with the Dietary Manager, several items in the stockroom and kitchen were noted to lack open dates. These items included a six (6) pound container of rainbow sprinkles, a 16-ounce container of red shade pure food color, a 48-ounce container of Real Lemon 100% juice, a one-half (1/2) gallon of buttermilk labeled "Wholesome," a clear container of seasoning salt without a date or item description, and a 32-ounce container of imitation vanilla flavor. All items were open with no open dates on the packages or containers.</p> <p>On 11/13/2024 at 11:47 AM, during an interview, the Dietary Manager explained that staff are required to date all open items in the kitchen. She stated that dating items indicates their shelf life and helps prevent potential outbreaks. She further stated that it is her responsibility to ensure staff adhere to this practice and that she has conducted in-service training on the importance of dating open items.</p> | M 815                                                                                  | <p>will audit food items for proper labeling and dates 3 times a week for 4 weeks then monthly for 3 months to ensure the facility's policy on labeling and dating food items is in place. Any observed issues will be corrected and then forwarded to the Quality Assurance and Improvement Committee for review and follow up beginning 12/20/2024, including any needed corrective actions, continued in-service education or change to current plan for 3 months then quarterly as needed.</p> |                                                        |

| M 855                                                       | <p>Continued From page 2</p> <p>This Statute is not met as evidenced by:<br/>Level II</p> <p>Based on observation, interviews, and record review, the facility failed to ensure that dietary staff supported the nutritional well-being of residents while respecting an individual's right to make choices about their diet for one (1) of thirteen (13) sampled residents reviewed for food preferences. (Resident #169)</p> <p>Findings included:</p> <p>On 11/12/2024 at 10:50 AM, during an interview, Resident #169 stated his primary concern about the facility was the type of food he was being served. He reported that his doctor instructed him to follow a high-protein and low-carbohydrate diet. However, he stated that since being in the facility, he was served more carbohydrates than protein. He indicated that he had complained to the Dietary Manager, leading to a temporary change, but the facility reverted to serving high-carbohydrate meals. He expressed concern that this could negatively impact his health.</p> <p>On 11/13/2024 at 12:10 PM, during a follow-up interview and an observation, Resident #169 described his meals for the day. He reported having pancakes, eggs, and grits for breakfast and stated that he would not eat both buns of the hamburgers served for lunch and did not want the banana pudding because he is diabetic, and it would raise his blood sugar levels. An observation of the lunch meal on 11/13/2024 revealed that Resident #169 was served two hamburgers, French fries, and banana pudding.</p> <p>On 11/13/2024 at 1:11 PM, during an interview,</p> | M 855                                                                                  | <p>On 11/13/2024, Resident #169's tray card was updated and Resident #169 was served the requested diet. Resident #169 was assessed by the Director of Nurses and found to not have any adverse effects from this practice.</p> <p>All residents who receive meals from the dietary department have the potential to be affected by this practice. On 11/13/2024, the Dietary Manager reviewed and updated all tray cards to reflect residents' food preferences.</p> <p>Beginning 11/14/2024, all current and any newly hired staff will receive in-service training on the facility's responsibility to provide the diet of the resident's choice to honor food preferences. In-service training will be completed on the facility's responsibility to provide the diet of the resident's choice to honor food preferences by the Dietary Manager and the Director of Nurses by 12/01/2024. A Quality Assessment and Assurance Committee Meeting was held on 11/25/2024, to review the plan of correction and finalize the performance improvement plans.</p> <p>Beginning 12/1/2024, the Dietary Manager will observe food service 3 times a week for 4 weeks then monthly for 3 months to ensure the facility is honoring the food preferences of residents. Beginning 12/20/2024, any observed issues will be corrected and then forwarded to the Quality Assurance and Improvement</p> |                                                        |

MSDH - Health Facilities Licensure and Certification

|                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                        |                                                                                                                                                                                        |                                                        |

| M 855                                                       | <p>Continued From page 3</p> <p>the Dietary Manager confirmed that Resident #169 had expressed his preference for high-protein and low-carbohydrate meals, which she understood to be part of the doctor's orders due to surgical incisions. She admitted that the resident's breakfast and lunch meals did not align with his meal ticket and acknowledged that her staff did not consistently follow the preferences listed for Resident #169. She attributed this inconsistency to staff not understanding high-protein diets.</p> <p>On 11/14/2024 at 8:20 AM, during an interview, the Administrator confirmed the facility had failed to honor Resident #169's food preferences but stated it was the facility's goal to meet his and all residents' preferences.</p> <p>A record review of the "Admission Record" revealed that the facility admitted Resident #169 on 10/31/2024 with diagnoses that included Fusion of Cervical Spine, Essential Hypertension, and Type 2 Diabetes Mellitus.</p> <p>A record review of the Admission Minimum Data Set (MDS) with an Assessment Reference Date (ARD) of 11/6/24 revealed Resident #169 had a Brief Interview for Mental Status (BIMS) score of fifteen (15), which indicated the resident was cognitively intact.</p> <p>A record review of the Registered Dietitian (RD) Assessment dated 11/13/2024 for Resident #169 revealed, "Nutrition Diagnosis: 1.) Increased energy needs R/T (related to) surgical wounds ...2.) Inadequate energy/protein intake...Interventions: Recommend 1.) Increase protein portions to large at meals TID (three times a day). 2.) 30 mL (milliliters) Liquid protein daily for 30 days."</p> | M 855                                                                                  | <p>Committee for review and follow up including any needed corrective actions, additional in-service training or change to current plan for three months then quarterly as needed.</p> |                                                        |

Procedure ... 4. Perform hand hygiene and apply clean gloves ..."</p> <p>A review of the facility's policy titled, "Hand Hygiene," dated 08/21, revealed, "Purpose *To cleanse hands to prevent transmission of infection or other conditions. *To provide clean, health environment for residents, staff and visitors ... Procedure ... Indications for Hand Washing ... 3. Before and after procedures. 4. Before and after applying gloves ..."</p> <p>A review of the facility's titled, "Enhanced Barrier Precautions," revised 03/24, revealed, "Enhanced Barrier Precautions are an infection control intervention designed to reduce transmission of multidrug-resistant organisms (MDROs) in nursing homes. Enhanced Barrier Precautions may involve gown and glove use during high-contact resident care activities for residents known to be colonized or infected with an MDRO as well as those at increased risk for MDRO acquisition (e.g., residents with wounds or indwelling medical devices) ..."</p> | M1570                                                                                  | <p>#68, #70 and #216 have been assessed by the Director of Nurses and found to not have any adverse effects from this practice.</p> <p>All residents have the potential to be affected by this practice. On 11/13/2024, an audit was completed by the Assessment Nurse to identify all residents who needed to be placed on Enhanced Barrier Precautions. Four residents were identified and placed on Enhanced Barrier Precautions on 11/13/2024.</p> <p>Beginning 11/14/2024, all current and newly hired staff will be in-serviced on the facility's policy on Enhanced Barrier Precautions and hand hygiene by the Director of Nurses to be completed by 12/1/2024. A Quality Assessment and Assurance Committee Meeting was held on 11/25/2024, to review the plan of correction and finalize performance improvement plans.</p> <p>Beginning 12/1/2024, the Director of Nurses will audit resident conditions and diagnosis to identify residents who will need to be placed on Enhanced Barrier Precautions and observe hand hygiene 3 times a week for 4 weeks then monthly for 3 months to ensure the facility's policy for Enhanced Barrier Precautions and hand hygiene is being followed. Any observed issues will be corrected and then forwarded to the Quality Assurance and Improvement Committee for review and follow up beginning 12/20/2024, including any needed corrective actions or change to current plan for 3 months then quarterly</p> |                                                        |

When asked if Resident #3 required EBP, RN #1 stated, "No, we don't have anyone in the facility on that."</p> <p>On 11/13/2024 at 11:20 AM, during an interview, Licensed Practical Nurse (LPN) #2, the Infection Prevention (IP), explained residents are usually placed on contact or isolation precautions for infections, but she had just been informed by RN #1 that EBP included residents with catheters, Percutaneous Endoscopic Gastrostomy (PEG) tubes, and chronic wounds. She was unable to recall if staff had received training regarding EBPs.</p> <p>On 11/13/2024 at 12:15 PM, during an interview, the Director of Nursing (DON) stated that Resident #3 required the use of EBP, which the facility had not instituted. She explained that anyone performing close contact care with Resident #3 should wear a gown and gloves in accordance with EBP guidelines. She stated that an in-service was conducted by the facility in March when the Centers for Medicare and Medicaid Services (CMS) recommended the use of EBP, and it was her expectation that staff would follow these guidelines. She emphasized that not following them placed residents at</p> | M1570                                                                                  | as needed.                                                                                                               |                                                        |

| M1570                                                       | <p>Continued From page 8</p> <p>from the dresser. She then proceeded with care without washing her hands.</p> <p>During an interview on 11/12/24 at 11:18 AM, CNA #1 admitted she did not think about washing her hands upon entering the room. She stated she performed hand hygiene in the hallway before entering but confirmed that she did not perform hand hygiene after touching the door, privacy curtains, and bed remote. CNA #1 acknowledged that her actions could result in cross-contamination, potentially causing an infection.</p> <p>A record review of Resident #68's "Admission Record" revealed an admission date of 11/07/24 with diagnoses that included a Urinary Tract Infection (UTI), Nausea and Vomiting, and Encounter for Palliative Care.</p> <p>Resident #70:</p> <p>During an observation of perineal care on 11/13/24 at 11:03 AM, with CNA #1 revealed CNA #1 entered the room, washed her hands, and donned a pair of gloves. During the care, she retrieved pre-moistened wipes from a container four times, touching the container with soiled gloves. She then placed the container on the resident's bedside table. After cleaning the resident, CNA #1 applied barrier cream to the resident's perineal area and buttocks while wearing the same soiled gloves. She later changed her gloves but did not perform hand hygiene before applying clean gloves.</p> <p>During an interview on 11/13/24 at 11:15 AM, CNA #1 confirmed she had received training and understood that she should not touch objects with dirty gloves and should wash her hands before</p> | M1570                                                                                  |                                                                                                                          |                                                        |

| M1570                                                       | <p>Continued From page 9</p> <p>applying clean gloves.</p> <p>Record review of the "Admission Record" revealed Resident #70 was admitted to the facility on 11/6/24 with diagnoses that included Urinary tract infection and Type 2 Diabetes Mellitus.</p> <p>Resident #216</p> <p>On 11/13/2024 at 1:21 PM, during an observation, LPN #3 was observed providing suprapubic catheter care for Resident #216. LPN #3 failed to remove or change her gloves during the entire procedure. She removed the soiled dressing, placed it in the biohazard container, cleaned the site, and applied a new dressing while wearing the same gloves.</p> <p>On 11/13/2024 at 1:25 PM, during an interview, LPN #3 confirmed that she did not remove or change her gloves during the procedure. She acknowledged placing the soiled dressing in the biohazard trashcan in Resident #216's room and then touching the suprapubic catheter site with the same gloves. She agreed this was a break in infection prevention protocol.</p> <p>A record review of the "Admission Record," revealed the facility admitted Resident #216 on 10/30/24. The resident had diagnoses that included Sepsis due to Methicillin-Resistant Staphylococcus Aureus (MRSA). with diagnoses including Sepsis due to methicillin-resistant Staphylococcus aureus (MRSA).</p> <p>On 11/13/2024 at 2:10 PM, during an interview LPN #2/Infection Preventionist (IP) verified staff are expected to follow infection prevention guidelines by changing gloves each time they are soiled and performing hand hygiene before</p> | M1570                                                                                  |                                                                                                                          |                                                        |
