M 735	Continued From page 2 Level II Based on record review and staff interview, the facility failed to, in accordance with accepted and professional standards and practices, maintain accurately documented medical records for four (4) of four (4) resident's records reviewed out of a total of 116 residents in the facility with potential for adverse outcome. Resident #1, Resident #2, Resident #3, and Resident #4. Findings include: The facility was not able to provide a policy for maintaining accurate medical records with specifics to Certified Nurse Aide documentation. Resident #1 Review of Resident #1's medical record revealed, he was admitted to the facility on 07/01/2019, and was discharged from the facility on 07/20/2020 to the hospital where he expired. He was admitted with diagnoses of Severe protein calorie Malnutrition, Diabetes Type 2, End Stage Renal Disease with dialysis, Dementia without Behavioral Disturbance, Atherosclerotic Heart Disease, and Epilepsy. Review of Resident #1's "Documentation Survey Report" for nurse aide task completion for the month of March 2020 revealed eight (8) days in which bed mobility assistance every shift was not documented. There was no documentation for all three shifts for one day reviewed, and for seven (7) days there was missing documentation for one of three shifts for bed mobility. There were also 8 days in which turning and repositioning assistance documentation was not complete. For	M 735	1. Initiated education on 1/28/2021, by the Director of Nursing, for all Certified Nursing Assistants staff including staff for Residents #3, & #4. Resident #1 and Resident #2 were discharged from the facility. The Education included proper documentation by entering bed mobility along with repositioning and turning into the electronic record and requirement to complete all documentation each shift. This with completion date on 2/1/2021. 2. One hundred and sixteen (116) Residents residing in facility on 1/28/2021, had the potential to be affected by this alleged deficient practice. 3. On 1/28/2021 Education was completed by the Staff Development Coordinator for Licensed Nurses to monitor point of care documentation in Resident's electronic health record each shift to ensure completion and accuracy regarding Activities of daily living (ADL) care by the Certified Nursing Assistants. On the week of 2/1/2021 Licensed Nurses began monitoring each shift for point of care documentation in Resident's electronic health record to ensure completion and accuracy regarding Activities of daily living (ADL) care by the Certified Nursing Assistants. Beginning the week of 2/1/2021, Licensed Nurses will turn in a end of shift report involving any concerns noted related to activities of daily living (ADL) care by the Certified Nursing Assistants. Any findings will be addressed immediately. 4. Beginning on the week of 2/1/2021, Director of Nursing, Assistant Director of Nursing, and Staff Development Coordinator conducted audits of point of

M 735	Continued From page 3 1 day there was no documentation present for all three shifts, and for 7 days there was missing documentation for one of three shifts for turning and repositioning. Review of Resident #1's "Documentation Survey Report" for nurse aide task completion for the month of April 2020 revealed, 7 days in which documentation for bed mobility was not complete. There was no documentation for all three shifts for one day reviewed, and for six (6) days there was missing documentation for one of three shifts for bed mobility. There were also 7 days in which turning and repositioning assistance documentation was not complete. For 1 day there was no documentation present for all three shifts, and for 6 days there was missing documentation for one of three shifts for turning and repositioning. Resident #2 Review of Resident #2's medical record revealed he was admitted to the facility on 01-08-2021 with diagnoses of a Fractured Left Femur. Review of Resident #2's "Documentation Survey Report" for January 2021 revealed 19 shifts in which bed mobility was not documented as done every shift. Of those 19 days, 2 days had no documentation for all three shifts, 5 days had documentation for one shift of three shifts, and 12 days had documentation for 2 of 3 shifts completed. Further review revealed 19 shifts in which turning, and repositioning was not documented as completed every shift. Of those 19 days, 2 days had no documentation for all three shifts, 5 days had documentation for one shift of three shifts, and 12 days had documentation for 2 of 3 shifts completed.	M 735	care documentation within electronic health record with use of Residents electronic dashboard to ensure completion and accuracy of bed mobility, turning and repositioning documentation each shift. Any findings were addressed immediately. Audits will be conducted by the Director of Nursing and Assistant Director of Nursing weekly on 2/26/2021 for twenty-five (25) Residents for four (4) weeks and then fifteen (15) Residents monthly for three (3) months regarding activities of daily living (ADL) care by the Certified Nursing Assistants. Beginning 2/26/2021, the Director of Nursing will report findings to the Quality Assurance Performance Improvement committee monthly for three (3) months for review and further recommendations. The Director of Nursing is responsible for monitoring and compliance.

M 735	Continued From page 4 Resident #3 Review of Resident #3's medical record revealed he was admitted to the facility on 5/4/2018 with diagnoses of Stroke, Aphasia, and Diabetes. Review of Resident #3's "Documentation Survey Report" for January 2021 showed 22 days in which bed mobility was not documented as completed. Of those 22 days, one day had no documentation for all three shifts, nine (9) days had documentation for one of three shifts, and 12 days had documentation for 2 of 3 shifts. Further review for turning and repositioning revealed 22 days in which documentation was not completed that the resident had been turned and repositioned every shift. Of those 22 days, one day had no documentation for all three shifts, nine (9) days had documentation for one of three shifts, and 12 days had documentation for 2 of 3 shifts. Resident #4 Review of Resident #4's medical record revealed he was admitted to the facility on 10/01/2019 with a Stage III pressure ulcer to his right lateral malleolus, Aphasia, and Diabetes. Review of Resident #4's "Documentation Survey Report" for January 2021, showed 17 days in which bed mobility was not documented as completed every shift. Of those 17 days, 2 days had documentation for 1 of 3 shifts, and 15 days had documentation for two of three shifts completed. Further review revealed 17 days in which turning, and repositioning was not documented as completed every shift. Of those 17 days, 2 days had documentation for 1 of 3	M 735

M 735	Continued From page 5 shifts, and 15 days had documentation for two of three shifts completed. On 01/28/2021 at 2:30 PM during an interview with the Director of Nursing (DON), she agreed there was missing documentation for his bed mobility and turning and repositioning and stated those items should be documented every shift by the aides so that there was proof of Residents #1, #2, #3, and #4 being turned and repositioned and being assisted with bed mobility. She agreed that failure to chart the care given would make it impossible to prove the facility had provided the care.	M 735
