Resident #11 Findings include: Record review of facility policy titled, "Promoting/Maintaining Resident Dignity During Mealtimes" dated March 2025, revealed, "It is the practice of this facility to treat each resident with respect and dignity and care for each resident in a manner and in an environment that maintains or enhances his or her quality of life, recognizing each resident's individuality and protecting the rights of each resident". During an observation of lunch in the dining room on 3/16/26 from 12:10 PM through 12:15 PM, it was noted that the two residents sitting at the table with Resident #11 both had their meal and were eating their lunch. F0578 SS = D	Continued from page 5 under Section C, a Brief Interview for Mental Status (BIMS) summary score of 15, indicating Resident #1 was cognitively intact. During an interview on 3/17/26 at 10:35 AM, Resident #1 revealed the facility had never discussed end-of-life decisions with her and revealed her sister had made those decisions on her behalf. During an interview on 3/17/2026 at 3:10 PM, the Social Services Director confirmed that although cognitive assessments are completed through the MDS Section C and a BIMS score of 13 or higher indicated a resident can make their own decisions, Resident #1, who was assessed as cognitively intact, was not provided the opportunity to discuss or complete her own advance directive. During an interview on 3/17/2026 at 3:30 PM, the Executive Director (ED) acknowledged that, based on Resident #1's cognitive status, she should have been able to make her own end-of-life decisions, but we deferred to the sister, who is the conservator. The ED confirmed that she has struggled with balancing resident rights and conservatorship, but expressed that the decision should have been Resident #1's. In an interview on 3/18/2026 at 9:32 AM, the Nurse Practitioner (NP) confirmed Resident #1 should have been allowed to make her own advance directive decisions. Record review of the "Admission Record" revealed the facility admitted Resident #1 on 2/17/22 with medical diagnoses that included Rheumatoid arthritis, Paraplegia, and Major depressive disorder.
