| F0000                                                                  | <p><b>INITIAL COMMENTS</b></p> <p>The State Agency (SA) conducted a Complaint Investigation (CI MS # 3003116) at the facility from 5/11/26 through 5/13/26. During the survey, the SA determined the facility was not in compliance with the requirements for participation in Medicare and Medicaid. The facility failed to implement known swallowing safety interventions and provide meal supervision and to revise the comprehensive care plan, for a resident who had a documented aspiration/choking risk and was cited F 657 for failure to revise the care plan and F 689 for accident hazards.</p> <p>The facility's failure to revise the care plan and provide supervision on 5/4/26 at 11:20 AM, resulted in serious injury and death for Resident #1, who had a documented aspiration/choking risk.</p> <p>During the investigation, the SA identified Immediate Jeopardy (IJ) and Substandard Quality of Care (SQC), which began on 4/27/26 when Speech Therapy evaluated Resident #1 and recommended close supervision while eating.</p> <p>The IJ and SQC existed at:</p> <p>42 CFR(s) 483.25(d)(1)(2) Accidents (F689) Scope/Severity "J".</p> <p>IJ existed at:</p> <p>42 CFR 483.21 (b)(1) Comprehensive Care Plans (F657)- Scope/Severity "J".</p> <p>This situation placed Resident #1 and other residents at risk for aspiration or choking in a situation that caused and was likely to cause serious injury, serious harm, serious impairment, or death.</p> <p>The SA notified the facility's Administrator of the IJ and SQC on 5/12/26 at 9:36 AM and provided the Administrator with the IJ templates.</p> <p>The facility submitted an acceptable Removal Plan on 5/12/26, in which they alleged all corrective actions to remove the IJ and SQC were completed</p> |                                                                            |  | F0000                                                                                          |                                                                                                                          |                                                     |                            |

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See reverse for further instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

| F0657<br>SS = J                                                        | <p>Continued from page 2</p> <p>Based on staff interview and record review the facility failed to timely revise and implement a comprehensive, person-centered care plan for one (1) of eight (8) residents at risk for aspiration and choking risk. Resident #1.</p> <p>The facility's failure to revise the care plan and provide supervision on 5/4/26 at 11:20 AM, resulted in serious injury and death for Resident #1, who had a documented aspiration/choking risk. Resident #1 was not provided supervision while eating when staff served his lunch meal and stepped away from the table. Resident #1 began choking and required transfer to the emergency department where he was intubated and air lifted to another hospital for a higher level of care. Resident #1 expired after being taken off the ventilator on 5/8/26.</p> <p>During the investigation, the SA identified Immediate Jeopardy (IJ) which began on 4/27/26 when Speech Therapy evaluated Resident #1 and recommended close supervision while eating.</p> <p>42 CFR 483.21 (b)(1) Comprehensive Care Plans (F657)- Scope/Severity "J".</p> <p>This situation placed Resident #1 and other residents at risk for aspiration or choking in a situation that caused and was likely to cause serious injury, serious harm, serious impairment, or death.</p> <p>The SA notified the facility's Administrator of the IJ on 5/12/26 at 9:36 AM, and provided the Administrator with the IJ templates.</p> <p>The facility submitted an acceptable Removal Plan on 5/12/26, in which they alleged all corrective actions to remove the IJ was completed on 5/12/26, and the IJ removed on 5/13/26.</p> <p>The SA validated the Removal Plan on 5/13/26 and determined the IJ and SQC was removed on 5/12/26, prior to exit. Therefore, the scope and severity 42 CFR 483.21 (b)(1) Comprehensive Care Plans (F657) for were lowered from a "J" to a "D" while the facility develops a plan of correction to monitor the effectiveness of the systemic changes to ensure the facility sustains compliance with regulatory requirements.</p> <p>Findings Included:</p> <p>Record review revealed that the facility did not have a policy for updating and revising care plans.</p> |                                                                            |  | F0657                                                                                          |                                                                                                                          |                                                     |                            |

| F0657<br>SS = J                                                        | <p>Continued from page 3</p> <p>Record review of a "Speech Therapy (ST) Note", dated 4/27/26, revealed recommendations for Resident #1 to have close supervision while eating. The recommended strategies included cyclic ingestion technique [two to three (2-3) sips per bite], small sips and bites, rate modification and general swallow techniques/precautions upright posture during meals.</p> <p>Record review of the care plan revealed "Plan comments: Swallowing study shows risk for choking...I feed myself in the dining room after set-up only". Interventions included up in dining room for meals, will tolerate by mouth (PO) without signs/symptoms of aspiration, do not allow me to have straws, drink from cup, and serve mechanical soft with pureed meat diet. Review of the care plan revealed that it did not contain any information about the ST recommendations or the resident needing close supervision.</p> <p>Interview with the Minimum Data Set (MDS) nurse on 5/11/26 at 4:00 PM stated that the point of the care plan is for staff to know how to take care of residents. She stated that the nurse receiving recommendations or new orders is responsible for updating the care plan. She verified that Resident #1's care plan was not revised with the new ST recommendations for close supervision during meals, but that it should have been.</p> <p>Removal Plan</p> <p>The facility failed to implement known swallowing safety interventions and close meal supervision on 05/04/26 at 11:20 A.M., for Resident #1 who had a documented aspiration/ choking risk, resulting in respiratory compromise and death, and failed to revise the comprehensive care plan for Resident #1 who was at risk for aspiration and choking, to include Speech Therapy (ST) recommendation for precautions and supervision to prevent aspiration and choking.</p> <p>Corrective Actions:</p> <p>1.On 05/04/26 at approximately 11:20 A.M., Licensed Practical Nurse (LPN) #1 noted Resident #1 had a panicked look on his face, yelled "help" and grabbed his chest. LPN #1 immediately identified the resident was choking and initiated back blows and called for help.</p> <p>2.On 05/04/26 at approximately 11:21 A.M., additional staff arrived, lowered Resident #1 to floor and abdominal thrusts initiated. Although Resident</p> |                                                                            |  | F0657                                                                                          |                                                                                                                          |                                                     |                            |

| F0689<br>SS = SQC-J                                                    | <p>Free of Accident Hazards/Supervision/Devices</p> <p>CFR(s): 483.25(d)(1)(2)</p> <p>§483.25(d) Accidents.</p> <p>The facility must ensure that -</p> <p>§483.25(d)(1) The resident environment remains as free of accident hazards as is possible; and</p> <p>§483.25(d)(2) Each resident receives adequate supervision and assistance devices to prevent accidents.</p> <p>This REQUIREMENT is NOT MET as evidenced by:</p> <p>Based on review of facility investigation, staff interviews and record review the facility failed to provide adequate supervision and assistance during meals for one (1) of eight (8) residents at risk for aspiration and choking risk. Resident #1.</p> <p>The facility's failure to provide supervision on 5/4/26 at 11:20 AM, resulted in serious injury and death for Resident #1, who had a documented aspiration/choking risk. Resident #1 was not provided supervision while eating when staff served his lunch meal and stepped away from the table. Resident #1 began choking and required transfer to the emergency department where he was intubated and air lifted to another hospital for a higher level of care. Resident #1 expired after being taken off the ventilator on 5/8/26.</p> <p>During the investigation, the State Agency (SA) identified Immediate Jeopardy (IJ) and Substandard Quality of Care (SQC), which began on 4/27/26 when Speech Therapy evaluated Resident #1 and recommended close supervision while eating.</p> <p>The IJ and SQC existed at:</p> <p>42 CFR(s) 483.25(d)(1)(2) Accidents (F689) Scope/Severity "J".</p> <p>This situation placed Resident #1 and other residents at risk for aspiration or choking in a situation that caused and was likely to cause serious injury, serious harm, serious impairment, or death.</p> <p>The SA notified the facility's Administrator of the IJ and SQC on 5/12/26 at 9:36 AM and provided the Administrator with the IJ templates.</p> <p>The facility submitted an acceptable Removal Plan</p> | F0689                                                                      |                                                                                                                          |                                                                                                |  |                                                     |  |

| F0689<br>SS = SQC-J                                                    | <p>Continued from page 7<br/>on 5/12/26, in which they alleged all corrective<br/>actions to remove the IJ and SQC were completed<br/>on 5/12/26, and the IJ removed on 5/13/26.</p> <p>The SA validated the Removal Plan on 5/13/26 and<br/>determined the IJ and SQC was removed on<br/>5/12/26, prior to exit. Therefore, the scope and<br/>severity for 42 CFR(s) 483.25(d)(1)(2) Accidents (F689)<br/>were lowered from a "J" to a "D" while the facility<br/>develops a plan of correction to monitor the<br/>effectiveness of the systemic changes to ensure the<br/>facility sustains compliance with regulatory<br/>requirements.</p> <p>Findings Included:</p> <p>Record review revealed that the facility did not have<br/>a policy related to supervision and monitoring to<br/>prevent accidents.</p> <p>Record review of the facility investigation revealed<br/>that on 5/4/26 at approximately 11:20 AM, staff<br/>served Resident #1 his lunch tray and stepped away<br/>from the table. Moments later, Resident #1 then<br/>yelled help and Licensed Practical Nurse #1 (LPN)<br/>saw that the resident had a panicked look on his<br/>face and placed his hand on his chest. LPN #1<br/>realized that the resident was choking and<br/>immediately went to the resident and began back<br/>blows and called for help. Additional staff entered<br/>the dining room, the resident was assisted to the<br/>floor, and abdominal thrusts were initiated. Staff<br/>were unable to clear Resident #1's airway so he was<br/>transferred to the local emergency room. The<br/>physician and responsible party (RP) were notified.<br/>In the emergency room, the resident presented not<br/>breathing with a slow thready pulse. He was<br/>intubated in the emergency room and was<br/>transferred to another hospital for a higher level of<br/>care.</p> <p>Record review of a "Long Term Care (LTC) Note",<br/>dated 4/24/26, for Resident #1 revealed Speech<br/>Therapy (ST) was consulted due to the resident<br/>having increased coughing during meals.</p> <p>Record review of a "Speech Therapy Note", dated<br/>4/27/26, revealed recommendations for Resident #1<br/>to have close supervision while eating. The<br/>recommended strategies included cyclic ingestion<br/>technique [two to three (2-3) sips per bite], small<br/>sips and bites, rate modification and general swallow<br/>techniques/precautions upright posture during<br/>meals. ST notes also indicated that Resident #1<br/>scored a nine (9) out of 30 on the Standardized<br/>Mini-Mental State Examination (SMMSE), indicating</p> |                                                                            |  | F0689                                                                                          |                                                                                                                          |                                                     |                            |

| F0689<br>SS = SQC-J                                                    | <p>Continued from page 8<br/>that the resident is severely cognitively impaired.</p> <p>Record review of a "LTC Note", dated 4/29/26, for Resident #1 revealed that during dinner the resident began to cough and choke. The resident coughed up a large amount of food. Before the nurse could identify what, the resident choked on, he began to immediately eat again and choked again. Resident was able to cough up the food, and the nurse identified the food item as a dinner roll and had it removed from the resident's diet.</p> <p>Record review of a "ST Note", dated 4/30/26 revealed that the nurse reported Resident #1's choking incident that occurred on 4/29/26 and ST reiterated that the resident required close supervision precautions to the nurse.</p> <p>Record review of hospital triage note, dated 5/4/26, for Resident #1 revealed resident arrived cyanotic, unresponsive, was not breathing and staff was unable to obtain a pulse. Cardiopulmonary Resuscitation (CPR) was initiated.</p> <p>Record review of "Final Report" from the local emergency room (ER) dated 5/4/26, for Resident #1 revealed that resident was being transported to a higher level of care via helicopter related to posturing after post choking cardiac arrest and possibly had anoxic brain injury.</p> <p>Record review of "LTC Note" dated 5/8/26, for Resident #1 revealed that the resident's RP notified the facility that the resident passed away at 5:22 PM on 05/08/26 after being removed from the ventilator.</p> <p>Interview with LPN #1 on 5/11/26 at 2:30 PM, she verified that she and the staff in the dining room were aware that Resident #1 was at risk for aspiration and choking and were aware of ST recommendations to prevent aspiration and choking. She verified that the resident required repetitive cues to follow the recommendations from the speech therapist. She further stated that his short-term memory was bad, and you can tell him to take small bites and he will but then he will go right back to taking large bites. She stated that she had repositioned the resident and instructed him to take small bites, chew and then swallow. She then stepped away to check on other residents. Another resident had asked her for fluids and when she went to get the fluids Resident #1 called out and put his hand on his chest and was choking. She stated she immediately initiated back blows to attempt to dislodge the food and called for help. She verified additional staff assisted resident to the floor and</p> | F0689                                                                      |                                                                                                                          |                                                                                                |  |                                                     |  |

| F0689<br>SS = SQC-J                                                    | <p>Continued from page 9<br/>began abdominal thrust, but they were unsuccessful<br/>in clearing his airway; so, the resident was<br/>transferred to the ER.</p> <p>On 5/11/26 at 2:36 PM, an observation with LPN #1,<br/>revealed the location that Resident #1 was sitting in<br/>dining room at the time of incident and she verified<br/>that he was sitting at the table that was facing the<br/>wall and staff were unable to see his face. There<br/>were two (2) Certified Nursing Assistants (CNA)<br/>sitting with other residents at a table diagonally<br/>across from where the resident was and this put<br/>Resident #1's back to the CNAs.</p> <p>Interview on 5/11/26 at 2:45 PM with ST revealed<br/>Resident #1 was at risk for aspiration and choking.<br/>Her recommendations were for Resident #1 to have<br/>close supervision while eating. She indicated that<br/>this meant that the staff should be present one on<br/>one with the resident to ensure that he is following<br/>his recommended strategies to prevent aspiration<br/>and choking. She verified the recommended<br/>strategies included 2 to 3 sips per bite, small sips<br/>and bites, rate modification and general swallow<br/>techniques/precautions, and upright posture during<br/>meals. She verified the resident required consistent<br/>cues to perform safe swallowing due to his impaired<br/>cognition. She stated she notified the Hall Nurse and<br/>Charge Nurse of the recommendations so they can<br/>enter them into the system to ensure that staff are<br/>aware.</p> <p>Interview with the Administrator (ADM) on 5/11/26 at<br/>3:30 PM she agreed that Resident #1 should have<br/>received close supervision and consistent cueing<br/>during meals.</p> <p>Interview with the ADM on 5/12/26 at 8:45 AM, she<br/>verified there were no orders or communications in<br/>the system regarding the ST recommendations for<br/>Resident #1.</p> <p>Interview on 5/12/26 at 10:15 AM with CNA #2<br/>verified that she was working in the dining room at<br/>lunch on 5/4/26. She stated she passed out trays<br/>and then sat down to assist another resident to eat.<br/>She stated that she was aware of Resident #1's<br/>need for cues and supervision. She stated usually<br/>someone is with him while he eats. She verified that<br/>from where she was sitting, she could not see the<br/>resident eating because his back was to her. She<br/>verified that no one was at the table with the<br/>resident. She stated he called out and it was noted<br/>that he was choking. She verified she assisted the<br/>nurse in moving the resident and providing care<br/>until he was transferred out.</p> |                                                                            |  | F0689                                                                                          |                                                                                                                          |                                                     |                            |

| F0689<br>SS = SQC-J                                                    | <p>Continued from page 10</p> <p>Telephone interview on 5/12/26 at 12:28 PM, with Charge Nurse #1 (CN) she stated that she did not receive any ST recommendations for Resident #1 on 4/27/26. She stated that ST spoke to the Hall Nurse. She further verified that she works in the dining room at times and is aware of the supervision and cues that the resident required for eating safely.</p> <p>Record review of demographics form revealed the facility admitted Resident #1 on 12/2/24.</p> <p>Record review of "Diagnosis and Problems" list revealed Resident #1 had a diagnosis of Cerebrovascular Accident and Difficulty Swallowing.</p> <p>Removal Plan</p> <p>The facility failed to implement known swallowing safety interventions and close meal supervision on 05/04/26 at 11:20 A.M., for Resident #1 who had a documented aspiration/ choking risk, resulting in respiratory compromise and death, and failed to revise the comprehensive care plan for Resident #1 who was at risk for aspiration and choking, to include Speech Therapy (ST) recommendation for precautions and supervision to prevent aspiration and choking.</p> <p>Corrective Actions:</p> <p>1.On 05/04/26 at approximately 11:20 A.M., Licensed Practical Nurse (LPN) #1 noted Resident #1 had a panicked look on his face, yelled "help" and grabbed his chest. LPN #1 immediately identified the resident was choking and initiated back blows and called for help.</p> <p>2.On 05/04/26 at approximately 11:21 A.M., additional staff arrived, lowered Resident #1 to floor and abdominal thrusts initiated. Although Resident had a faint pulse, attempts to clear the airway were unsuccessful.</p> <p>3.On 05/04/26 at 11:45 A.M., Resident #1 placed on stretcher and transported to local hospital Emergency Room (ER) via Registered Nurse (RN) #1, LPN #2, and LPN #3.</p> <p>4.On 05/04/26 at 11:45 A.M., Attending Physician was notified by the Charge Nurse regarding the incident, current resident's condition and an order was received to transfer to local ER.</p> <p>5.On 05/04/26 at 11:50 A.M., Resident # 1 's Responsible Party (RP) was notified of incident and</p> | F0689                                                                      |                                                                                                                          |                                                                                                |  |                                                     |  |
