F 000	INITIAL COMMENTS The State Agency (SA) conducted a recertification survey at the facility from 01/4/22 through 01/6/22. The SA determined the facility was not in compliance with the requirements for participation in Medicare and Medicaid related to failure to perform hand hygiene, cleaning multiple use equipment, maintaining a clean environment, improper storage of respiratory equipment, not labeling oxygen equipment, an unsanitary dietary department, a nonfunctioning call light, and failure to provide appropriate Activities of Daily Living (ADL) care for residents. The SA cited deficiencies at F584, F677, F695, F812, F880, and F919. At the time of the survey, the facility census was 55 and the facility held a license for 60 beds.			F 000			
F 584 SS=E	Safe/Clean/Comfortable/Homelike Environment CFR(s): 483.10(i)(1)-(7) §483.10(i) Safe Environment. The resident has a right to a safe, clean, comfortable and homelike environment, including but not limited to receiving treatment and supports for daily living safely. The facility must provide- §483.10(i)(1) A safe, clean, comfortable, and homelike environment, allowing the resident to use his or her personal belongings to the extent possible. (i) This includes ensuring that the resident can receive care and services safely and that the physical layout of the facility maximizes resident independence and does not pose a safety risk. (ii) The facility shall exercise reasonable care for the protection of the resident's property from loss or theft.			F 584			2/21/22

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

Follow buffing, clean the dining room, follow buffing and perform final walk through, sweep up any debris, mop up any spills." An observation was made on 01/04/22 upon entrance to the building at 10:00 AM the State Agency (SA) smelled a strong odor of urine upon entrance inside the building and also on the South hallway around rooms 101-103. The SA smelled odors of urine on 01/05/22 upon entrance to the building at 8:15 AM in the front lobby and around room 117 at 3:00 PM on the North Hallway and on the South Hallway around rooms 101-103 at 3:10 PM and again at 4:05 PM on the South Hallway on 01/05/22. An observation was made on 01/04/22 at 11:30 AM of the floors on the North and South hallways of dirt and debris, medicine cups, plastic wrapping from cracker packs, leaves and visible pieces of dirt and mud all throughout the facility on both hallways. An observation on 01/04/22 from 11:30 AM through 1:00 PM, on the North and South hallways of visible spills on the floors and dried liquid spills that have dirt dried on the top of the spills are observed in rooms 101, 112, 113, 117 and 133. An observation on 01/05/22 at 3:35 PM, revealed an area about the size of a small plate of a dark brown soiled area on the floor outside of room 117. The Housekeeping Supervisor later confirmed at 4:20 PM on 01/05/22, that it was from the wall hand sanitizer leaking onto the floor	F 584	practices was conducted by the Executive Director on 1/6/2022. All residents have the potential to be affected by this issue. Education of housekeeping staff on 1/6/2022 by the District Manager was conducted on routine cleaning schedules. All new hires will be educated on cleaning schedule upon hire. Housekeeping staff to adhere to routine cleaning schedule and address areas of concern as needed. The Executive Director(ED) or Director of Nurses(DON) will conduct a quality review of resident rooms and common areas 3 times weekly for 4 weeks, then 2 times weekly for 4 weeks, then weekly for 4 weeks to begin on 1/10/2022. Monitoring will continue weekly and as needed. Result of quality review will be reported to the Quality Assurance Performance Improvement(QAPI)committee by the ED on 2/21/22 and monthly times 6 months for review and recommendations.

F 584	Continued From page 3 and it had dried with accumulated dirt and debris on the area and that it had not been cleaned up. An interview on 01/05/22 at 4:00 PM, with the Housekeeping Supervisor and the District Housekeeping Manager stated that the floor cleaner had broken down about a year ago and the facility was responsible for replacing the equipment and they had not gotten a replacement until about two weeks ago. The District Housekeeping Manager stated that the floor cleaner will deodorize, clean, mop and buff the floors but that he has not had a chance to in-service the staff to use it yet so that is why the floors look so bad. The Housekeeping Supervisor stated that all they have to clean the floors with at this time is a mop and a broom and that they have not been able to buff the floors in over a year. An observation on 01/05/22 from 4:00 PM until 4:25 PM, with the District Housekeeping Manager and the Housekeeping Supervisor along with the SA made walking rounds of the building and they confirmed that the areas around rooms 101-103 had strong urine odors in the hallways and also outside of room 117. The Housekeeping Supervisor confirmed that they had deodorizer sprayers mounted in the hallways but when she checked the wall mounted device, the deodorizer can was empty in the hallway outside of rooms 101-103. During this tour of the facility an observation of the two shower rooms on the South Hallway were observed to have dark black growth and an orange tan color build up on the shower floors and along the walls of the tile in the showers and on the rubber mat on the shower room floors in two (2) of two shower rooms on the South hallway. An interview with the	F 584

F 812	Continued From page 11 cleaned and sanitized after each use. All non-food contact equipment will be clean and free of debris. An observation of the kitchen on 01/4/22 at 10:05 AM, during the initial tour, revealed two (2) pitchers of tea and eight (8) glasses of milk in the refrigerator not dated. There were three (3) baking sheets, (2) muffin pans and (2) 9x13 pans covered with thick, rough black build up and (2) 10 inch skillets and one (1) 12 inch skillet with the outside coated with brownish black build up. The outside of the walk-in refrigerator door and handle was covered with brown and white splashes of debris and build up. The inside of the door was covered with a thin brownish film and the walls were splattered with dry brownish and white colored areas that had run down the walls. The ice machine had black buildup around the seal of the lid. On 01/05/22 at 11:05 AM, an observation and interview with the Dietary Manager (DM) and the District Dietary Manager (DDM) confirmed that the ice machine had buildup around the seal of the lid and noted an approximately 0.5 centimeter (cm) black flake in the center of the ice. The DDM confirmed the black flake in the ice and stated that it probably fell off the ice machine seal and stated that the ice was contaminated. An interview on 01/5/22 at 10:50 AM, with the DM stated that she saw a lot of "dirtiness" in the kitchen. An interview on 01/5/22 at 10:55 AM, with the DDM revealed he stated that the kitchen needed a good cleaning.	F 812	Maintenance Director(MD). A quality review was conducted by the Executive Director(ED) on 1/6/2022 of the dietary department. All residents of the facility have the potential to be affected by this issue. On 1/6/2022 education was started with dietary staff by the ED on dating and proper storage of food and beverages, all dietary staff to be educated, new hires to receive education upon hire. Routine cleaning schedule was initiated on 1/6/2022 by the District Manager. On 1/6/2022 the MD was educated by the ED on documentation and cleaning of the ice machine. The ED or Human Resources Coordinator(HRC) will conduct a quality review of the dietary department to observe for any food/beverage items not covered or dated, carbon build-up on pots and pans, and cleanliness of the kitchen began on 1/10/2022. Quality Review to be conducted 3 times a week for 4 weeks, 2 times a week for 4 weeks, and then to continue weekly for 8 weeks. Results will be reported to the Quality Assurance Performance Improvement(QAPI) committee monthly beginning 2/21/22 for 6 months by the ED for review and recommendations.

F 812	Continued From page 12 An interview on 01/6/22 at 9:05 AM, with the Administrator (ADM) revealed that unlabeled food could cause food borne illness and the ice machine needed cleaning. He stated that he did not like that, "it was nasty". The ADM stated that pans with carbon build up can harbor germs that the dishwasher might not handle, and it could be a fire hazard. He stated that they have new pans in storage, and they should have replaced them. An interview on 01/6/22 at 12:30 PM, with the DM confirmed there was not a cleaning schedule for the kitchen staff to follow. An interview on 01/6/22 at 12:35 PM, with Dietary Staff #1 confirmed there was no cleaning schedule posted for cleaning the kitchen and stated that they just did what they could. An interview with the Maintenance Director revealed that the ice machine is cleaned every month and that he thinks it was cleaned in December. Record review of the Work History report revealed the due date for cleaning ice machines was 10/31/2021. The task completion column revealed no action recorded. For due date 11/30/2021, the task completed column revealed marked done on time on 12/8/2021. For due date 12/31/2021, the task completed column was marked done on time on 12/8/2021.	F 812

F 919	Continued From page 21 rounds checking all the call lights in every resident's room and bathroom was observed. An interview at that time with the DON confirmed that all the call lights in the building were working properly except for Resident #8's room. The DON immediately placed a bell at the bedside of Resident #8's bed and instructed her how to utilize the bell while the Maintenance Director was working on the call light. The DON confirmed that she was not made aware that the resident's call light was not working last week. An interview with the Administrator on 01/04/22 at 1:00 PM confirmed that he was not aware that the resident's call light was not working last week and was not made aware that it was not working properly until now. Interview with the DON on 01/05/22 at 2:00 PM stated that she had investigated into who the resident had told that her call light wasn't working and it was Certified Nursing Assistant (CNA) #2 on the night of 01/03/22 around 9 PM. She said that CNA #2 confirmed to her on a phone interview on 01/04/22 that she failed to report to anyone that the call light for Resident #8 was not working, and she failed to provide an alternate way to call for assistance when the resident needed help. Record review of Resident # 8 medical record revealed that she was admitted to the facility on 05/22/21 with diagnosis of Cognitive Communication Deficit, Difficulty in Walking and Lack of Coordination. The most recent Brief Interview for Mental Status (BIMS) completed on 10/13/21 revealed a BIMS score of 15, indicating the resident had full cognitive ability.	F 919
