F 000	INITIAL COMMENTS *Based on Administrative Review changes were made to pg. 23* The State Agency (SA) conducted a COVID-19 Focused Survey for Nursing Homes at the facility from 08/17/2020 to 08/20/2020. During the survey, the SA determined the facility was not in compliance with the requirements of participation for Medicare and Medicaid. The facility was not following Infection Control safety practices in guidance recommended by the Centers For Medicare and Medicaid Services (CMS) and the Centers for Disease Control and Prevention (CDC) recommended practices during the COVID-19 pandemic. The SA cited the regulation F880. The SA identified an Immediate Jeopardy (IJ) on 08/18/2020 and determined the IJ existed, on 08/03/2020 with the death of Resident #27, the first death of a resident who had not left the building, occurred due to or as a result of COVID-19. The facility had a total number of 18 positive COVID-19 residents in the building at the time of the survey and has had three (3) positive COVID-19 resident deaths. The facility has had a total of 60 positive COVID-19 and 15 positive COVID-19 staff members. On 8/18/20, at 11:55 AM, the SA notified the facility of an Immediate Jeopardy (IJ) due to the facilities failure to follow the Centers for Disease Control (CDC) and Centers for Medicare & Medicaid Services (CMS) guidelines for infection control practices during the COVID-19 pandemic. The facility failed to follow infection control guidelines to prevent the spread of COVID-19	F 000

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 000	Continued From page 1 due to failure to change Personal Protective Equipment (PPE) gown upon entering and exiting positive and negative COVID-19 resident rooms, to clean an oxygen concentrator prior to its removal from a positive COVID-19 resident room and cover it during the transfer in the hall to a negative COVID-19 resident room and wear all appropriate PPE in a positive COVID-19 resident room. The failure to clean a contaminated medical equipment, change PPE between entering and exiting positive and negative COVID-19 resident rooms and not wearing the required PPE in a positive COVID-19 resident room placed all the residents in the building in a situation to cause impairment, harm, fatal infection, or death. The Immediate Jeopardy (IJ) existed at: 42 CFR (s):483.80(a)(1)(2)(4)(e)(f) Infection Control (F880). The facility submitted an Acceptable Immediate Jeopardy Removal Plan, on 08/18/2020, in which the facility alleged all corrective actions were completed on 08/18/2020, and IJ removed on 8/18/2020. The SA validated the facility's Immediate Jeopardy Removal Plan on 08/20/2020 and determined the IJ was removed on 08/18/2020 prior to exit on 08/20/2020. Therefore the scope and severity for 42 CFR (s):483.80(a)(1)(2)(4)(e)(f) Infection Control (F880) was lowered from "L" to a scope and severity of a "F", while the facility develops a plan of correction to monitor the effectiveness of the systemic changes to ensure the facility sustains compliance with regulatory requirements. F 880	Continued From page 4 and prevent the possible spread of the COVID-19 virus between positive and negative COVID-19 residents. This concern was identified for Residents #1, #2, #12, #13, #14, #15, #18, #19, #20 and #23, as evidenced by the facility's failure to change gloves and wash hands or use hand sanitizer between resident rooms, failure to change Person Protective Equipment (PPE) between positive and negative Covid-19 residents, and wear full PPE in positive Covid-19 residents rooms. The facility staff also failed to clean an oxygen concentrator before transferring the machine from a contaminated room to a non-contaminated room, and then placed the oxygen mask on the resident's face. The concerns was identified for 13 of 68 residents in the facility. On 08/17/2020, the State Agency (SA) surveyor made observations of the facility's staff members failure to perform hand hygiene, change PPE when entering and exiting positive COVID-19 residents and then entering and exiting negative resident rooms with the same PPE on. The facility staff also failed to clean an oxygen (O2) concentrator that was in a positive COVID-19 resident's room prior to transferring the machine to a negative COVID-19 resident room, and then placed the oxygen mask on the resident's face. Record review revealed the facility had a total of three (3) COVID-19 related deaths. Two of the deaths occurred in the hospital and one in the facility. The Immediate Jeopardy (IJ) was determined to exist on 08/03/2020, at the time of Resident #27's death, who was one of the three COVID-19 deaths in the facility and one of those three residents who had not left the building except for their transfer to the hospital related to COVID-19.	F 880	Correction is submitted to meet requirements established by state and federal law. 1. Root Cause Analysis (RCA) was completed by the Quality Assurance and Performance Improvement Committee (QAPI) on 8/18/2020. Based on the findings the Certified Nursing Assistant (CNA) #1 failed to change personal protective equipment (PPE) before entering the room of resident #12, #13, #14, #15, #18 and #19. CNA #2 failed to clean an oxygen concentrator before transferring resident #1's machine from a contaminated room to an non-contaminated room. Therapists entered a Covid-19 positive resident #23 room without donning a gown. 2. All residents have the potential to be affected by this practice. 3. 100 hall was made the designated Covid-19 unit on August 19, 2020 with signage indicating so at both entrances. A QAPI Committee meeting was held on 8/18/2020 with the Medical Director, Infection Preventionist, Administrator, Director of Nursing (DON), Director of Rehabilitation, Social Services Director, Housekeeping and Laundry Director, Dietary Service Manager, Business Office Manager, and Minimum Data Set Coordinator to discuss the education to change PPE from a positive Covid-19 resident's room before entering a negative resident's room and training of staff to clean equipment before transferring from

F 880	Continued From page 5 The facility's failure to follow appropriate COVID-19 infection control guidelines for not wearing PPE, sanitizing hands, changing PPE between positive and negative residents and cleaning an oxygen concentrator when transferring from a contaminated room to non-contaminated room has caused, or likely to cause serious injury, harm, impairment or death to residents who tested positive for the COVID-19 virus while residing solely in the facility. The affected three (3) of 60 Covid-19 positive Residents who had not been out of the facility. Resident # 25, #26 and #27 expired due to, or as consequence of COVID-19, as indicated on the certificate of death or physician documentation. Findings include: Review of the facility's policy titled, "Isolation Policy", with a revision date of 08/18/2020 revealed: Transmission precautions are initiated when a resident develops signs and symptoms of a transmissible infection; arrives for admission with symptoms of an infection; or has a laboratory confirmed infection; and is at risk of transmitting the infection the infection to other residents. Masks, gloves, gowns and goggles will be worn when entering a Residents room. Review of the facility's policy titled, " For Suspected or Confirmed Coronavirus (COVID-19)", revised 04/2020, revealed; the facility leadership and clinical staff are implementing all reasonable measures to protect the health and safety of residents and staff during the current outbreak of coronavirus disease (COVID-19). The response to the current outbreak of coronavirus disease is based on the	F 880	a resident's room. Updating of policies and procedures were discussed. All staff were in serviced starting on August 19, 2020 by DON and Licensed Practical Nurse regarding the donning and doffing of PPE and the cleaning of equipment before removing from a resident's room. All residents were screened for signs and symptoms of COVID-19 each shift. Residents who continue to test negative for COVID-19 continue to be tested weekly. 4. Staff Development or DON will conduct a Quality Review weekly regarding the proper donning and doffing of PPE and equipment cleaning x4 weeks and then monthly x3 months. Quality Review to be modified based on finings. Quality Review findings will be reported in the monthly QAPI Committee Meeting and reviewed by the Interdisciplinary Team for any further recommendation for 90 days.

F 880	Continued From page 6 most current recommendations from health policy officials, state agencies and the federal government. Infection prevention and control measures are based on established guidelines governing all communicable diseases. Residents with suspected or confirmed COVID-19 infection are placed in a separate room or cohorted with other residents with the same infection status. Residents who cannot be treated adequately or safely separated from other residents will be transferred. Standard precautions are utilized when caring for all residents. Contact and droplet precautions are implemented for any residents with symptoms of respiratory infection. Current CDC guidelines will be followed for infection prevention and control of residents diagnosed with COVID-19. Review of the facility's policy titled, "Cleaning and Disinfection of Resident-Care Items and Equipment", revised 08/18/2020, revealed; the resident -care equipment, including reusable items and durable medical equipment will be cleaned and disinfected according to current CDC recommendations for disinfection and the Occupational Safety and Health Administration (OSHA) bloodborne pathogens standard. Durable Medical Equipment (DME) such as oxygen concentrators must be cleaned and disinfected before removing from a contaminated area and moved to a non-contaminated area for reuse by another or same resident. During the facility's initial observation tour, on 08/17/2020 at 10:10 AM, observations revealed the facility did not have a designated COVID-19 unit. The facility had COVID-19 positive Residents located on each of the halls in the building, hall 100, 200, 300 and 400. The facility	F 880

F 880	Continued From page 7 had precaution signs on the doors and PPE carts placed outside all of the positive COVID-19 residents rooms. The positive COVID-19 residents also had two barrels in their room for linen and trash. The facility held a license for 120 beds. Review of the Resident Census and Condition report, dated 08/17/2020 revealed a census of 68. Review of the facility's census printed, on 08/18/2020 at 10:05 AM, revealed there was four (4) positive COVID-19 residents and 14 negative COVID-19 residents on the 400 hall; one (1) positive COVID-19 and 12 negative COVID-19 residents on the 300 hall; one (1) positive COVID-19 and 19 negative COVID-19 residents on the 200 hall and 11 positive COVID-19 and five (5) negative COVID-19 residents on the 100 hall. During an interview, on 08/17/2020 at 10:00 AM, the Administrator (ADM) and Director of Nursing (DON) revealed the DON confirmed the facility had positive COVID-19 residents all over the building. The DON said the facility tried to make the 300 hall a designated COVID-19 hall, but the facility had several hospital returns in which they had to place them on 14-day quarantine. The facility was unable to keep the wing closed for positive COVID-19 residents because there were more positive residents than negative. The DON said the facility decided to put positive residents in the room together and negative residents together. The Administrator and DON reported the facility had a total of 60 Residents and 15 staff members to test positive with COVID-19. The DON said as of 08/17/2020, there was 18 residents that are currently COVID-19 positive.	F 880

F 880	Continued From page 8 An observation, on 08/17/2020 at 10:30 AM, revealed Certified Nursing Assistant (CNA) #2 transferred Resident #1's oxygen (O2) concentrator from Room 114, a room with a positive COVID-19 Resident (#2) across the hall to Room 115, where a negative COVID-19 resident resided and then placed the oxygen mask on the Resident #1's face. CNA #2 did not clean the O2 concentrator prior to moving it out into the hall and transport it from Room 114 to Room 115. CNA #2 did not cover the O2 concentrator either prior to transferring it from Room 114 to Room #115. During an interview, on 08/17/2020 at 2:40 PM, CNA #2 confirmed she failed to clean the oxygen concentrator. CNA #2 confirmed she transferred Resident #1's contaminated oxygen concentrator from room 114 down the hallway to room 115 without cleaning it. CNA #2 said she was told at the last minute to transfer Resident #1 from room 114 to room 115. CNA #2 said she was not thinking when she removed the oxygen concentrator. CNA #2 confirmed she was trained to clean the concentrator before removing it from one room to another. CNA #2 said she had been in-serviced on COVID-19 and infection control several times. Record review of the facility's Face Sheet for Resident #1, revealed, Resident #1 was admitted by the facility, on 05/31/2018, with diagnoses which included Heart Disease, Diabetes Mellitus and Hypertension. Resident #1 resided in Room 115-1. Resident #1 tested for COVID-19 on 08/05/2020 and the results on 08/06/2020 was negative. Record review of the facility's Face Sheet for	F 880

F 880	Continued From page 12 COVID-19 on 08/05/2020 and the results was reported on 08/06/2020 to be positive. During an interview, 08/17/2020 at 2:50 PM, the DON confirmed as of 08/17/2020, the facility has 18 positive covid-19 residents in the building. The DON said the facility did not have any positive residents until the facility was tested, on 07/29/2020, when the facility was tested by the outbreak team. The DON said 30 out of 70 residents tested positive. The DON said most of the residents that was positive was on the 200 Hall. There were no positive residents on the 100 Hall. The DON also said he believed the residents on the 100 Hall became positive due to an asymptomatic employee. The DON confirmed the facility has had a total of 60 positive residents and 15 positive staff. The DON said there was two (2) staff still on quarantine due testing positive at this time. The DON also confirmed that one (1) resident died in the facility and two (2) residents died at the hospital related to COVID-19. The DON confirmed CNA #1 failed to follow the facility policy by not changing PPE and sanitizing her hands after each positive resident. The DON said all the staff has been in-serviced on donning and doffing PPE. The DON said he would provide more education to CNA #1. The DON also confirmed CNA #2 should have cleaned the oxygen concentrator and placed a bag over it prior to moving it to another room. The DON said he was going to re-in-service the staff. Record review, of the Face Sheet for Resident #25, revealed Resident #25 was admitted by the facility on 10/01/2005 and readmitted on 05/02/2012, with the included diagnoses of Dementia, Diabetes Mellitus and Heart Disease. Resident #25 resided on the 100 Hall. Resident	F 880

F 880	Continued From page 13 #25 tested positive for COVID-19 on 08/10/2020. Resident #25 expired at the facility on 08/14/2020. Review of Resident #25's Death Certificate revealed the resident expired, on 08/14/2020 at 1:55 PM, due to Respiratory Failure due to COVID-19. Record review, of the Face Sheet for Resident #26, revealed Resident #26 was admitted by the facility, on 07/30/2019, with the included diagnoses of Dementia, Chronic Kidney Disease and Congestive Heart Failure. Resident #26 resided on the 200 Hall. Resident #26 tested positive for COVID-19 on 07/30/2020 at the facility. Resident #26 was sent to the Emergency Room (ER), on 08/14/2020. The Departmental Notes dated 08/14/2020 at 3:42 PM, revealed Resident #26 was exhibiting hypoxemia and lethargy. The resident would not keep his oxygen (O2) on even with the nurse continuing to apply the O2, Resident #26's oxygen saturation (O2 sat) was low as 70 to 78 percent (%) with O2 at five liters per minute (5L/M). An order was received from the physician to send Resident #26 to the Emergency Room (ER). Emergency Response Services (EMS) arrived at 3:10 PM and the resident was transferred out to the hospital at 3:20 PM per the EMS. Previous Departmental Notes documented by Social Services (SS) at 2:33 PM and 2:34 PM, revealed the SS staff was performing a Minimal Data Set (MDS) evaluation for the resident's mood and memory. Resident #26 expired, on 08/15/2020, at the hospital. Review of the hospital's Discharge Summary, for Resident #26, with a date of service 08/15/2020,	F 880

F 880	Continued From page 15 Diagnosis was Pneumonia due to COVID-19. The summary was signed by the physician on 08/03/2020 at 8:54 PM. On 08/17/2020 at 10:48 AM, an observation revealed the Registered Occupational Therapist (ROT) and Physical Therapist Assistant (PTA) entered Resident #23's room wearing masks/shields and gloves, but no gowns on. Further observation revealed the ROT and PTA assisted Resident #23 to drink water from a cup and then the ROT and PTA both left the room. On 08/17/2020 at 10:52 AM, an interview with the ROT and PTA as they were exiting Resident #23's room revealed they did not have PPE gowns on during their visit to Resident #23 because they were only helping the resident do drink some water. Review of Resident #23's lab reports revealed she tested positive for COVID-19 on 08/05/2020. On 08/17/2020 at 11:36 AM, an interview with the Medical Doctor (MD) revealed if a resident in the facility is COVID-19 positive then that resident would be required to be on contact/droplet precautions and whoever enters the room should wear full PPE with gowns, if they are 6 (six) feet or closer proximity to the resident. On 08/17/2020 at 1:45 PM, an interview with the ROT revealed she did not have to wear a PPE gown while she was in Resident #23's room because she was not providing care for Resident #23, she was only giving her water to drink. She stated since she was not providing direct resident care, she only had to wear gloves and mask/shield that she did not have to wear a	F 880

F 880	Continued From page 16 gown. This surveyor asked if she was 6 (six) feet in proximity to Resident #23, and she replied yes, she was within 6 (six) feet of Resident #23. On 08/17/2020 at 1:55 PM, an interview with the PTA revealed she did not have to wear a PPE gown when entering Resident #23's room because she was not providing care, only giving her water to drink. This surveyor asked if she was closer than 6 (six) feet to Resident #23, and she replied she was at Resident #23's bedside. The PTA stated since she was not providing Resident #23 direct patient care, she did not have to don a gown before entering Resident #23's room. The facility submitted an acceptable Immediate Jeopardy (IJ) Removal Plan, on 08/18/2020. Review of the Removal Plan revealed the facility took the following actions to remove the Immediate Jeopardy. 1. On 08/18/2020 at 11:55 AM, the state agency notified the facility of an Immediate Jeopardy due to facility failure to follow Centers for Disease Control (CDC) and Centers for Medicare & Medicaid Services (CMS) guidelines for infection control practices during the COVID-19 pandemic. The facility failed to follow infection control guidelines to prevent the spread of COVID-19. Certified Nursing Assistant (C.N.A.) #1 failed to change her Personal Protective Equipment (PPE) gown while entering COVID positive and negative resident rooms from rooms 401 to 414 with four (4) positive COVID-19 residents. Certified Nursing Assistant (C.N.A.) #2 failed to clean oxygen concentrator between contaminated resident's room 114 to a non-contaminated room 115 across the hallway.	F 880
