C992	G.S. § 131D-45 G.S. § 131D-45. Examination and screening for G.S. § 131D-45. Examination and screening for the presence of controlled substances required for applicants for employment in adult care homes. (a) An offer of employment by an adult care home licensed under this Article to an applicant is conditioned on the applicant's consent to an examination and screening for controlled substances. The examination and screening shall be conducted in accordance with Article 20 of Chapter 95 of the General Statutes. A screening procedure that utilizes a single-use test device may be used for the examination and screening of applicants and may be administered on-site. If the results of the applicant's examination and screening indicate the presence of a controlled substance, the adult care home shall not employ the applicant unless the applicant first provides to the adult care home written verification from the applicant's prescribing physician that every controlled substance identified by the examination and screening is prescribed by that physician to treat the applicant's medical or psychological condition. The verification from the physician shall include the name of the controlled substance, the prescribed dosage and frequency, and the condition for which the substance is prescribed. If the result of an applicant's or employee's examination and screening indicates the presence of a controlled substance, the adult care home may require a second examination and screening to verify the results of the prior	C992

Response to Statement of Deficiencies

G.S.131D-45 Examination and screening for the presence of controlled substances required for applicants for employment in adult care homes

A signed consent was found dated on 6/15/16. A new drug test was performed on 11/04/16 with all results coming back negative. Although a drug test was performed on 6/15/16 the documentation was not adequate. In the future, an administrator will assure a drug test is completed upon offer of employment.
