D 000	Initial Comments The Adult Care Licensure Section conducted an annual and follow-up survey on June 18, 2019 through June 21, 2019.	D 000		
D 079	10A NCAC 13F .0306(a)(5) Housekeeping and Furnishings 10A NCAC 13F .0306 Housekeeping and Furnishings (a) Adult care homes shall (5) be maintained in an uncluttered, clean and orderly manner, free of all obstructions and hazards; This Rule shall apply to new and existing facilities. This Rule is not met as evidenced by: Based on observations, record reviews, and interviews, the facility failed to assure the facility was clean and free of hazards in 3 of 4 common resident spa/bathrooms and a resident bathroom (resident room #10) on the assisted living halls and in 1 of 3 common resident spa bathrooms, 2 shared bathrooms (resident rooms #43 and #45, resident rooms #51 and #53), 2 resident bathrooms (resident rooms #46 and #48), 1 resident room (#45), and the living room in the Special Care Unit (SCU). The findings are: Observation of the first spa bathroom on the left Hall of the assisted living (AL) side on 06/18/19 at 12:15pm revealed there was a buildup of a white substance on the floor of the spa shower and on the lower tiles of the shower.	D 079	Housekeeping will clean bathrooms weekly or more frequently as needed. Administrator/Designee working with housekeeping supplier to obtain cleaning solution to removing buildup off of all showers and tiles.	8/5/2019 and ongoing 8/30/2019

D 079	Continued From page 1 Observations of the first spa bathroom on the left Hall of the AL side on 06/18/19 at 12:16pm revealed there was a build up of a brown substance around the base of the faucet and the hot and cold-water knobs on the sink. Interview with a housekeeper on 06/20/19 at 10:36am revealed: -She worked on the AL halls as a housekeeper. -She would rinse the showers daily. -She scrubbed the spa bathrooms when they were dirty. -There were only 2 housekeepers working each day one for the AL and one for the special care unit. -She cleaned the resident's bathrooms daily. -There was no documented cleaning schedule to her knowledge. Observation of the shared bathroom in resident rooms #23 and #24 on the Right Hall of the AL side on 06/18/19 at 11:50am revealed: -There were two metal brackets on the wall to the right of the sink attached with two screws each and there was no bar attached to the brackets. -There were 2 sharp, protruding edges sticking out on both metal brackets. Interview with the Administrator on 06/18/19 at 2:14pm -The maintenance director only came to the facility once a week, normally on Fridays. -They had a maintenance binder that staff documented all needed maintenance repairs for the maintenance director to do. -Repairs had to wait until the maintenance director came weekly to be repaired. Interview with the Administrator on 06/18/19 at	D 079

D 079	Continued From page 2 2:22pm and 2:37pm revealed: -The housekeeping staff worked from 7:00am to 3:00pm daily. -The housekeeping staff should be cleaning the bathrooms daily, including scrubbing the showers. -She did not know there were metal, protruding brackets on the wall in the shared bathroom between resident rooms #23 and #24. -She would have the brackets removed. Interview with a resident in room #23 on 06/20/19 at 10:28am revealed the metal brackets with a missing towel bar on the wall beside the sink had been that way for "months and months". A second observation of the shared bathroom in resident rooms #23 and #24 on the Right Hall of the AL side on 06/20/19 at 10:28am revealed the metal brackets had been removed but the 4 screws remained in the wall. Observation of the spa bathroom beside resident room #12 on the Right Hall of the AL side on 06/18/19 at 12:10pm revealed: -The shower tile was broken and missing around the metal pipe attached to a plastic turn knob, leaving a hole above the metal pipe with jagged, sharp edges. -There was a thick white coating of soap scum all over the floor and walls of the shower tiles and on the metal grab bars in the shower. -There was a metal bar about 3 feet long attached to the lower right shower wall that had sharp edges. -The shower bench was missing from the metal bar and there was a second metal piece midway below the bar that protruded from the wall about 6 inches with sharp edges.	D 079	Screws in wall were removed from shared bathroom in resident rooms #23 and #24. Shower tile was repaired in spa bathroom.	6/28/2019 7/12/2019

D 079	Continued From page 3 Observation of the spa bathroom beside resident room #11 on the Right Hall of the AL side on 06/18/19 at 12:18pm revealed: -There was a thick white coating of soap scum all over the floor and walls of the shower tiles and on the metal grab bars in the shower. -The heaviest build up of white soap scum was on the tiles in the corner of the shower. Interview with the Administrator on 06/18/19 at 2:37pm revealed: -She did not know the spa bathrooms on the AL halls had a coating of white soap scum. -She did not know there was broken tile around the knob in one of the spa bathrooms on the AL side. -It should be documented in the maintenance binder. -The maintenance person should be doing a walk through when he was at the facility each week. -She did not usually monitor or do a walk through of any of the bathrooms in the facility. Interview with a housekeeper on 06/20/19 at 10:36am revealed: -The broken tile in the shower in the spa bathroom on the Right Hall of the AL side had been fixed several times. -She did not know why it kept breaking. A second observation of the spa bathroom beside resident room #12 on the Right Hall of the AL side on 06/20/19 at 10:35am revealed: -The shower tile was still broken and missing around the metal pipe attached to the plastic turn knob, leaving a hole above the metal pipe with jagged, sharp edges. -There was still a white coating of soap scum all over the floor and walls of the shower tiles and on the metal grab bars in the shower. D 079	Continued From page 4 -The metal bar that was attached to the lower right shower wall had been removed leaving rust marks, small holes, and a metal screw protruding from the wall of the shower. -There was brown debris on the shower floor below the area where the metal bar was removed. A second observation of the spa bathroom beside resident room #11 on the Right Hall of the AL side on 06/20/19 at 10:20am revealed: -There was still a white coating of soap scum all over the floor and walls of the shower tiles and on the metal grab bars in the shower. -There was a lighter build up of white soap scum on the tiles in the corner of the shower than observed on 06/18/19. Interview with the Administrator on 06/18/19 at 3:55pm revealed: -An estimate for repair of the broken shower towel was obtained on 05/15/19. -The estimate was handled through the corporate office. -Once corporate office got an estimate, it was out of her hands. -She usually waited for corporate to set up and let her know when a repair company was coming to the facility to complete any repairs. -No date had been set up to repair the shower wall to her knowledge. Observation of the bathroom in resident room #10 on the Right Hall of the AL side on 06/18/19 at 12:32pm revealed: -The toilet seat was pushed to the left creating a gap between the right side of the seat and the rim of the toilet. -The seat was loose and moved from side to side when touched.	D 079	Holes repaired, rust marks cleaned and metal screw removed from the wall of the shower.	7/12/19

D 079	Continued From page 6 #46 in the SCU on 06/18/19 at 4:51pm revealed there were two metal towel brackets without the bars on the wall across from the sink that were extended approximately 3 inches from the wall and had exposed sharp edges. Observation of the bathroom in resident room #48 in the SCU on 06/18/19 at 4:56pm revealed: -There was an adjustable metal frame raised toilet seat over the toilet in the bathroom. -The metal frame had rusty areas all over. -There was an area of metal frame next to the toilet seat that was rusted completed into two pieces and had exposed rusty metal jagged edges. -There was a toilet paper metal rack located on the wall on the right side of the toilet with 2 exposed metal prongs and no bar. Interview with a personal care aide (PCA) on 06/18/19 at 4:57pm revealed: -The raised toilet seat was used by a resident. -She had not noticed the rusted areas on the raised toilet or that part of the frame was rusted in two pieces with exposed edges. -She had not noticed any missing towel racks in any resident's bathrooms. -She did not know anything about the cracked tiles in the spa bathroom next to resident room #43. Observation of the living room area in the SCU on 06/18/19 at 5:03pm revealed there was a broken electrical outlet cover on the lower right wall area that was accessible to the residents in the SCU. Observation of the shared bathroom in resident rooms #51 and #53 in the SCU on 06/18/19 at 5:08pm revealed: -There were two metal brackets with exposed	D 079	Towel Bar removed in room #46. Adjustable toilet seat replaced in room #48. Metal toilet paper rack will be removed Electrical outlet cover replaced in living room area of SCU.	7/12/2019 7/12/2019 8/30/2019 7/12/2019

D 079	Continued From page 8 Review of the facility maintenance book on 06/19/19 at 5:03pm revealed: -A large 3 ring binder labeled maintenance repair book was kept in the BOM's office. -There was a 7-column form, titled "maintenance repair list" and the columns were for date, location, description of what needed to be repaired, date received, initials, date repaired, and initials. -There was an asterisk noted directive above the columns, the Administrator/ED should initial off each week that repairs were completed. -On 05/17/19, a written repair request for room 19 for tiles in middle floor had water under it. Date repaired and initials were left blank. Interview with the Business Office Manager (BOM) on 06/19/19 at 5:11pm revealed: -She is aware of the maintenance director comes weekly, normally on Fridays. -The maintenance book is kept in her office for all staff to have access to make written request or concerns. -When she conducted new hire orientation and apart of the onboarding tour, she reviewed maintenance repair book process and location. Interview with the maintenance director on 06/19/19 at 5:03pm revealed: -On 05/20/19, he started working a four-week rotating schedule with five facilities for the company. -He goes to each facility one day each week. -He goes to each facility for two days for one week of the four-week rotating schedule. -The schedule should always follow the four-week rotating schedule unless emergency occurs at another facility. -Going to a location on a non-scheduled day, must be approved by corporate. (1) The home shall have staff on duty to meet the needs of the residents. The daily total of aide duty hours on each 8-hour shift shall at all times be at least: (A) First shift (morning) - 16 hours of aide duty for facilities with a census or capacity of 21 to 40 residents; and 16 hours of aide duty plus four additional hours of aide duty for every additional 10 or fewer residents for facilities with a census or capacity of 40 or more residents. (For staffing chart, see Rule .0606 of this Subchapter.) (B) Second shift (afternoon) - 16 hours of aide duty for facilities with a census or capacity of 21 to 40 residents; and 16 hours of aide duty plus four additional hours of aide duty for every additional 10 or fewer residents for facilities with a census or capacity of 40 or more residents. (For staffing chart, see Rule .0606 of this Subchapter.) (C) Third shift (evening) - 8.0 hours of aide duty per 30 or fewer residents (licensed capacity or resident census). (For staffing chart, see Rule .0606 of this Subchapter.)	D 188	Administrator/Designee will complete schedule to ensure there is adequate staff in accordance of 10A NCAC 13F .0604 Administrator/Designee will retrain staff on facility call out and tardy policies. SIC will notify on-call management staff immediately if someone fails to follow facility policy on call outs and does not show for their shift.	8/5/2019 & ongoing 8/12/2019 8/5/2019 & ongoing

D 188	Continued From page 28 (D) The facility shall have additional aide duty to meet the needs of the facility's heavy care residents equal to the amount of time reimbursed by Medicaid. As used in this Rule, the term, "heavy care resident", means an individual residing in an adult care home who is defined as "heavy care" by Medicaid and for which the facility is receiving enhanced Medicaid payments. (E) The Department shall require additional staff if it determines the needs of residents cannot be met by the staffing requirements of this Rule. This Rule is not met as evidenced by: Based on interviews and record reviews, the facility failed to assure aide hours met the minimum requirements on 6 of 12 shifts sampled for six days in June 2019.. The findings are: Review of the facility's 2019 license revealed: -The facility had a capacity of 122 residents. -The facility was licensed for 72 beds on the AL hall. Review of a resident census report dated 06/08/19 (Saturday) revealed the facility's in-house census on the assisted living (AL) was 32 residents, which required at least 16 hours of staff duty on third shift. Review of the punch time detail report dated 06/08/19 (Saturday) revealed there were 15 hours of staff duty provided on third shift, leaving the shift short staffed by 1 hour.	D 188	On-call management staff will immediately find coverage. If they cannot find coverage the on-call management staff will go in and work the shift to ensure staffing is in accordance of 10A NCAC 13F .0604. Any staff found not following policies and procedures on call outs, tardiness, or staffing will incur take disciplinary action, up to and including termination. Administrator/Designee will review punch reports weekly x 4 weeks, then per pay period (biweekly) thereafter to ensure the facility is staffing appropriately.	8/5/2019 & ongoing 8/5/2019 & ongoing 8/5/2019 & ongoing

D 358	Continued From page 40 opportunities during the 8:00am/9:00am and the 11:30am/12:00pm medication passes on 06/19/19. a. Review of Resident #10's current FL-2 dated 09/05/18 revealed diagnoses included dementia, hypertension, diabetes mellitus type 2, chronic kidney disease, obesity, history of recurrent urinary tract infections and incontinence. Review of Resident #10's physician order dated 06/12/19 revealed an order for Humalog KwikPen 28 units subcutaneous three times a day with meals. (Humalog is a fast-acting insulin used to lower blood sugar. According to the manufacturer, the Humalog KwikPen should be primed with a 2-unit air dose before each use to assure the insulin is flowing through the needle and to remove any air bubbles.) Review of Resident #10's June 2019 electronic medication administration record (e-MAR) revealed: -There was an entry to check the resident's blood sugar before meals and at bedtime. -There was an entry to administer Humalog KwikPen 28 units subcutaneously 3 times a day with meals (Prime pen with 2 units prior to each use- pen expires in 28 days). -Humalog was scheduled to be administered at 8:00am, 11:30am and 5:30pm. -The resident's blood sugar ranged from 145 - 420 from 06/01/19 to 06/19/19. Observation of the 11:30am medication pass on 06/19/19 revealed: -Resident #10's blood sugar was 255. -The medication aide (MA) did not perform a 2-unit air shot prior to dialing up the 28 units of Humalog for administration. D 358	Continued From page 41 -The MA administered the 28 units of Humalog to Resident #10's right upper arm at 11:36am. Interview with the MA on 06/19/19 at 1:51pm revealed: -The Licensed Health Professional Support (LHPS) nurse did the training on the insulin pens. -She was taught to prime the insulin pen before the first-time use. -She was taught to turn the dial to 1 or 2 units to prime the pen before each use. -She usually primed the pen before each use with 1 unit to make sure bubbles and air were out before administering the insulin. -She forgot to prime the Humalog KwikPen for Resident #10 that morning during the 11:30am medication pass. Interview with Resident #10 on 06/19/19 at 4:25pm revealed: -She received insulin every day. -She did not know how the MA prepared the insulin to be administered. Interview with the Administrator on 06/19/19 at 2:39pm revealed: -The LHPS nurse did the training on the insulin pens. -The LHPS nurse taught the MAs to dial up 2 units and perform an air shot before each injection. -They last had diabetic training on 06/05/19. Interview with the LHPS nurse on 06/21/19 at 10:42 revealed she did a diabetic class on 06/05/19 at the facility. b. Review of Resident #9's current FL-2 dated 03/14/19 revealed diagnoses of dementia, advanced degenerative joint disease of	D 358

D 358	Continued From page 42 shoulders, diabetes mellitus 2, edema, right hip pain, and vertigo. Review of Resident #9's physician order dated 04/24/19 revealed an order to check fingerstick blood sugars (FSBS) before meals and bedtime. Review of Resident #9's physician order dated 05/22/19 revealed an order for Novolog FlexPen 8 units subcutaneous 3 times a day after meals. (Hold if FSBS is less than (<) 100 and eats < 50 % of meal.) (Novolog is a rapid-acting insulin used to lower blood sugar.) Review of Resident #9's June 2019 electronic medication administration record (e-MAR) revealed: -There was an entry to check the resident's blood sugar before meals and at bedtime. -There was an entry to administer Novolog FlexPen inject 8 units subcutaneous 3 times a day after meals (Hold if FSBS < 100 and eats < 50% of meal). -Novolog was scheduled to be administered at 7:30am, 11:30am, and 5:30pm. -The resident's blood sugars ranged from 62 - 295 from 06/01/19 to 06/19/19. -There was no documentation on the e-MAR regarding the percentage of meals eaten. Observation of the 11:30am medication pass on 06/19/19 revealed: -Resident #9's FSBS was 68 at 10:58am. -The medication aide (MA) did not administer any Novolog insulin. -The MA documented the insulin was held due to FSBS being < 100. -The resident had not eaten lunch because it had not been served. D 358	Continued From page 43 Observation of the lunch meal on 06/19/19 from 11:35am - 12:01pm revealed: -Resident #9 ate approximately 75% of her lunch meal. -Resident #9 ate ½ of the hamburger steak, ½ of the zucchini, all of the pineapple, all of the mashed potatoes, all 4 of the hushpuppies, and drank all of the tea and water. Interview with the MA on 06/19/19 at 1:25pm revealed: -She held Resident #9's Novolog for any blood sugar < 100. - Even if Resident #9 ate greater than (>)50% she would still hold the Novolog insulin if the FSBS was < 100. -She had not noticed the order was to hold the insulin if FSBS was < 100 and if the resident ate < 50%. -She thought if the FSBS was < 100 it did not matter how much the resident ate. -She did not always see how much Resident #9 ate at meals. -Sometimes the personal care aides (PCAs) would tell her how much the resident ate. -Staff did not document how much of each meal Resident #9 ate. Interview with a PCA on 06/19/19 at 1:45pm revealed: -If any resident did not eat, the PCAs reported it to the MA. -She did not report how much any resident ate to the MA unless a resident did not eat any of their meal. -She did not document how much any resident ate for any meal. Telephone interview with Resident #9's primary care provider (PCP) on 06/19/19 at 2:02pm	D 358

D 358	Continued From page 44 revealed: -The order for Resident #9 was for staff to check the resident's blood sugar before meals. -If the resident's blood sugar was < 100 and if the resident ate < 50% of the meal, then staff was supposed to hold the insulin. -Staff would have to monitor how much the resident ate at each meal to determine if the resident's Novolog insulin should be administered after meal as ordered. -Since the resident's blood sugar was < 100 before lunch that day (06/19/19) but the resident ate > 50% of her lunch meal, the resident should have received Novolog after she ate the lunch meal. -The resident would have to meet both criteria in order for the insulin to be held according to the order. -She just saw the resident for a visit that day (09/19/19) and she would be decreasing the resident's insulin dosage because the resident was having some low blood sugars. Interview with the Administrator on 06/19/19 at 2:39pm revealed: -The MAs would need to monitor how much Resident #9 ate at meals to help determine if the resident's insulin should be held or administered. -There should be somewhere to document the resident's meal consumption on the e-MARs. 2. Review of Resident #1's current FL-2 dated 01/18/19 revealed diagnoses included dementia, atrial fibrillation, anemia, diabetes mellitus type II, gout, pedal edema, and long-term use of anti-coagulant. a. Review of Resident #1's current FL-2 dated 01/18/19 revealed: -There was an order for Eliquis 5mg twice daily.	D 358

D 367	Continued From page 60 Resident #5 was to receive nectar thickened liquids. Review of the therapeutic diet list posted in the kitchen on 06/19/19 at 10:40am revealed: -Resident #5 was supposed to have thickened liquids but the consistency was not specified. -The therapeutic diet list was last updated on 06/17/19. Interview with the Administrator on 06/19/19 at 1:15pm revealed: -She believed Resident #5 was supposed to have his liquids thickened to nectar thickened consistency. -She did not know the order for nectar consistency was not listed on Resident #5's FL-2. -She thought the dietary order dated 03/28/19 was sufficient since it was less than a year old. -She would contact Resident #5's primary care provider care for an updated dietary order. Telephone interview with Resident #5's primary care provider on 06/20/19 at 11:23am revealed Resident #5 required nectar-thickened liquids due to a history of swallowing problems. Review of Resident #5's electronic medication administration records (e-MARs) for April, May, and June 2019 revealed: -There was computer generated entries for thickening powder to be given with meals at nectar consistency scheduled at 8:00am, 12:00pm, and 5:00pm (Commercial thickening powder is used for patients who have trouble swallowing thin liquids to help prevent aspirating). -Resident #5's thickening powder was documented as prepared by the initials of the medication aide (MA). D935	Continued From page 93 Interview with the Administrator on 06/21/19 at 11:40am revealed: -She could not find any more information for the personnel records. -When she hired a new medication aide (MA) they had to provide proof they had worked as a MA in the last 24 months. -They had to shadow a MA on the cart for 5 days before giving medications. -They had to shadow a personal care aide (PCA) on the floor for 5 days. - If a PCA wanted to become a MA, they must work at the facility 6 months before they take the medication training class. -The pharmacy had a 15 hour online training the PCA could complete. -Then they could shadow the MA on the medication cart. -Then the Licensed Health Professional Support Nurse would have to check them off. The facility failed to assure 2 of 4 medication aides sampled (D,F) met the requirements to administer medications including Staff D who did not have documentation of completing the medication clinical skills checklist or completing the 5 hour, 10 hour, or 15 hour state approved medication administration training course; and Staff F who had not completed the 10-hour state approved medication administration training course. Staff D and Staff F made medication errors with the administration of insulin during the medication passes observed on 06/19/19. The facility's failure to have qualified medication aides administering medications was detrimental to the health, safety, and welfare of the residents and constitutes a Type B Violation. The facility provided a plan of protection on June 21, 2019 in accordance with G.S. 131D-34 for	D935
