D 079	Continued From page 1 bugs. Observation of resident room #4 on 11/19/21 at 8:57am revealed: -There was evidence of bed bugs at the joint between the wall and ceiling over the head of the resident's bed. -There was evidence of bed bugs in the folds of the canvas art hanging over a resident's bed. -There were 2 live spiders in the lower corners of one of the resident closets. Interview with a resident in room #4 on 11/19/21 at 8:57am revealed: -He killed a roach that was crawling on the wall that morning (11/19/21). -He could not remember when he last saw bed bugs in his room. Interview with a second resident in room #4 on 11/19/21 at 8:57am revealed he saw a live bed bug on the canvas art hanging over his bed on 11/17/21. Observation of resident room #3 on 11/19/21 at 9:15am revealed: -There were 2 dead bed bugs on the floor between the resident's bed and the bedside dresser. -There was evidence of bed bugs on the back of the bedside dresser. Interview with two residents in room #3 on 11/19/21 at 9:15am revealed they had not seen any bed bugs or roaches in the room. Interview with the pest control technician on 11/19/21 at 9:50am revealed: -He was conducting a follow-up of resident rooms #1, #2, #3 and #4 because the facility notified him	D 079	day to make sure furniture is clean and all areas are free from clutter. The facility will 12/6/21 also continue to work with the New pest control company to insure pests are control and mitigate. All living areas will be inspected daily by the manager and live pests will be reported immediately to the new pest

D 079	Continued From page 2 that bed bug activity was found during the county environmental health inspection on 11/17/21. -He was contacted by the facility for initial and monthly services on 10/23/21 or 10/24/21 but was unsure of the exact date. -He completed the initial treatment of the facility on 11/02/21 or 11/03/21 for bed bugs and roaches. -He completed a follow-up service on 11/16/21 specifically for bed bugs but the chemical he used killed roaches as well. -Spiders spin their webs around chemicals and were best treated by knocking down the web when they were found. -He would expect to still see some active roaches in the facility since the chemicals he used were designed to kill slowly and allowed pests to carry the chemical back to the nest. -There were clusters of bed bugs behind the drawers in the bedside dressers in resident room #3. -There were multiple roaches in various life stages including a pregnant female behind the drawer of a bedside dresser in room #3. -He told the Resident Care Coordinator (RCC) he recommended the bedside dressers be removed from the residents' room. Interview with the Resident Care Coordinator (RCC) on 11/19/21 at 10:51am revealed: -A new exterminator had been contracted by the facility. -She could not remember if the initial service was on 11/02/21 or 11/03/21 but there was a recheck by the pest control technician on 11/06/21. -The pest control technician re-sprayed some areas of the facility on 11/16/21 during his follow-up but she was unsure what areas were re-sprayed. -The pest control technician completed a	D 079	<i>control company for treatment.</i>
