{D 000}	Initial Comments The Adult Care Licensure Section conducted a follow-up survey from 10/25/22 to 10/26/22.	{D 000}	Response to cited deficiencies do not constitute an admission or agreement by the facility of the truth of the facts alleged or the conclusions set forth in the Statement of Deficiencies or Corrective Action Report; the Plan of Correction is prepared solely as a matter of compliance with State law.	
{D 270}	10A NCAC 13F .0901(b) Personal Care and Supervision 10A NCAC 13F .0901 Personal Care and Supervision (b) Staff shall provide supervision of residents in accordance with each resident's assessed needs, care plan and current symptoms. This Rule is not met as evidenced by: FOLLOW-UP TO TYPE B VIOLATION Non-compliance continues with increased severity resulting in residents placed at substantial risk that death or serious physical harm, abuse, neglect or exploitation will occur. THIS IS A TYPE A2 VIOLATION	{D 270}	Clayton House staff shall provide supervision of residents in accordance with each resident's assessed needs, care plan and current symptoms. Executive Director (ED) in-serviced all staff on the importance of notifying the Maintenance Tech or ED anytime there are any noted issues with the functioning of the doors and/or door alarms in order to ensure resident safety at all times. 10/27/22 The Maintenance Tech repaired door alarms in the facility, and ensured that door alarms had sounding volume loud enough for staff to hear them throughout the facility. 10/27/22 Facility will have Safety Sitter, who will be located centrally near the nurse's station to have increased visualization of the exit doors of the facility for resident safety. ED or designee will ensure this is assigned daily. 11/25/22	
	Based on observations and interviews, the facility failed to provide supervision for a facility licensed as a Special Care Unit during a time when the front door was malfunctioning resulting in 1 of 5 sampled residents (#5) with a diagnosis of dementia and wandering behaviors eloping from the facility without staff knowledge. The findings are: Review of the facility's current 2022 license revealed the facility was licensed as a special care unit (SCU) with a 60-bed capacity. Review of Resident #5's current FL-2 dated 04/19/22 revealed:		The Maintenance Tech ensure that he checks for staff feedback related to the volume of the door alarms while completing daily door/ alarm checks for function. Maintenance Tech will ensure staff is able to hear the alarms sounding throughout the facility and down the halls to ensure proper resident safety. 11/25/22 ED will follow-up on the functional status of the door alarms, as well as the proper functioning of the exit doors with the Maintenance Tech daily

{D 270}	Continued From page 1 -Diagnoses included dementia, expressive aphasia, and anxiety. -The recommended level of care was a SCU. -He was ambulatory and had wandering behaviors. -There was no documentation related his orientation status. Observations on 10/25/22 at 8:45am revealed: -The front door was locked and there was a doorbell at the door. -The staff unlocked the front door from the inside of the building using a keypad. -There was a sounding device that sounded while the door was opened, but immediately stopped sounding when the door was closed. -The staff did not have to deactivate the sounding device. -There were 4 other exit doors throughout the facility that had the same type of sounding device and keypad as the front door. -The sounding devices were not controlled by the keypad and were not connected to a fire panel.	{D 270}	during management meeting to ensure proper functioning. This will also be the time to check in with any noted concerns from the other members of the management team. Any concerns will have interventions put in place immediately. Residents identified as wanderers/ increased risk for elopement by the Resident Care Coordinator (RCC) will be placed on documented increased supervision by the care staff for safety. All newly hired staff will be educated on the importance of increased supervision wandering residents, as well as ensuring that they are to use main exit doors to enter and exit the building. They will also be educated to ensure that no residents are following them out of the facility, and to ensure the doors close securely behind them before walking away. This will occur during the orientation process. Residents identified as increased risk for elopement will be discussed in the weekly At-Risk meeting with the ED, RCC, and other members of the Interdisciplinary Team to ensure there is an appropriate plan to meet the needs of the resident, i.e. supervision, activities, medical needs, and appropriate setting.	11/25/22 11/25/22 11/25/22 11/25/22
	Observation of Resident #5 on 10/25/22 at 2:00pm revealed Resident #5 was at the 200 hall exit door attempting to push the door opened and pushing buttons on the key pad.		ED/RCC will round no less than twice daily to ensure that resident safety is secured, and any identified concerns are addressed promptly.	11/25/22
	Review of an accident/incident report for Resident #5 dated 10/14/22 revealed: -At approximately 6:15pm, Resident #5 eloped from the facility and returned with no injuries sustained. -Resident #5's primary care provider (PCP), family member and the adult home specialist were notified. -Resident #5 was placed on increased supervision, the door codes were changed, and the contracted company was notified and			11/25/22

A third interview with the Administrator on 10/26/22 at 2:44pm revealed resident #5 could have fallen or gotten hit by a car when he eloped from the facility on 10/14/22. The facility failed to provide supervision of all residents residing in a licensed Special Care Unit when the front entrance door which all residents had access was malfunctioning. This resulted in Resident #5 eloping from the facility without staff's knowledge, traveling across the street and to another medical facility where she was found by a medical office staff. This failure resulted in substantial risk for harm and constitutes a Type A2 Violation. The facility provided a plan of protection in accordance with G.S. 131D-34 on 10/26/22 for this violation.	{D 270}
