Based on observation there is a failure to maintain the facility's fire safety equipment in a safe operating condition. The occupants in the smoke compartment could be affected if the fire resistant rated doors do not completely close and latch to help limit the spread of smoke and/or fire to the area of origin.</p> <p>Findings on December 13, 2023:</p> <p>a. The left hand door on the cross corridor doors leading into the North Hall did not latch when released by the fire alarm. This was corrected at the time of survey.</p> <p>2. Based on observation there is a failure to maintain the building's fire safety systems in a safe condition. Holes or gaps at penetrations through fire resistant rated ceilings or walls could allow fire and smoke to spread beyond the area of origin.</p> <p>Findings on December 13, 2023:</p> <p>a. Front entrance - the exit sign was moved and the old holes have been plugged with sheetrock patches but the patches have not been finished.</p> <p>b. Kitchen - the ceiling is damaged and splitting at the sheetrock joint over the icemaker.</p> <p>c. North Hall Room 15 - there is a hairline crack in the ceiling about the middle of the room and there are water stains on the ceiling.</p> <p>d. Smoke Barrier Wall in attic near front Nurses' Station - there are black phone lines running through the wall that have not been sealed. A water line was run and a 3" diameter hole was cut to run the line leaving a hole in the rated wall. There is also a 12" hole in the wall to the left of the water line.</p> <p>3. Based on observation there is a failure to maintain the facility's fire safety equipment in a safe condition. In order to resist the passage of smoke resident room doors must not have openings within the surface of the door.</p> <p>Findings on December 13, 2023:</p> <p>a. South Hall Records Room - there is a gap through the door around the door hardware.</p> <p>b. Dining entry on North Hall - there is a gap around the door hardware.</p> <p>4. Based on observation the facility did not maintain electrical emergency/safety lighting equipment in safe operating condition. This could affect occupants of the facility if egress paths and exits were not illuminated during a power outage.</p> <p>Findings on December 13, 2023:</p> <p>a. Kitchen - the emergency light over the sink did not illuminate on test. This was corrected during the survey.</p> <p>5. Based on observation fire safety equipment has not been inspected to assure it has been maintained in a safe and operable condition. Occupants of the facility could be affected if fire safety equipment in the smoke compartment did not operate when needed to provide fire protection.</p> | C 189                                                                                           |                                                                                                                          |                                                        |
