(b) The total number of residents shall not exceed the number shown on the license. (c) A request for an increase in capacity by adding rooms, remodeling or without any building modifications shall be made to the county department of social services and submitted to the Division of Health Service Regulation, accompanied by two copies of blueprints or floor plans. One plan showing the existing building with the current use of rooms and the second plan indicating the addition, remodeling or change in use of spaces showing the use of each room. If new construction, plans shall show how the addition will be tied into the existing building and all proposed changes in the structure. (d) When licensed homes increase their designed capacity by the addition to or remodeling of the existing physical plant, the entire home shall meet all current fire safety regulations. (e) The licensee or the licensee's designee shall notify the Division of Health Service Regulation if the overall evacuation capability of the residents changes from the evacuation capability listed on the homes license or of the addition of any non-resident that will be residing within the home. This information shall be submitted through the county department of social services and forwarded to the Construction Section of the Division of Health Service Regulation for review of any possible changes that may be required to	{C 007}	10 NCAC 13G .0206 Capacity 2 of 5 residents were none ambulatory, unable to evacuate the facility independently. Rule Correction: The 2 non-ambulatory residents were given discharge notices on 10/13/24. One resident was discharged on 1/3/24 and the second resident was discharged on 1/7/24 to a higher level of care. Systematic Changes: All staff have had an Inservice on the definition of "ambulatory." The Administrator and/or DON will review residents and care plans once a month or when there is a significant change in status for the residents. If then the resident is no longer ambulatory, both the family and DSS will be notified, and a 30-day d/c notice will be issued for higher level of care. Monitoring: Using a facility created audit tool the Administrator and/or DON will complete monthly audits to ensure all residents that remain in the facility are ambulatory. The Administrator or Director of Nursing will report findings to the Quality Assurance Performance Improvement Committee monthly and make changes to the plan as necessary to maintain continued compliance. {C 007}	Continued From page 1 the building. This Rule is not met as evidenced by: Based on observations, interviews, and record reviews, the facility failed to notify the Division of Health Service Regulation (DHSR) when the ambulatory status for 2 of 5 residents differed from the evacuation capability listed on the license as evidenced by residents requiring hands on guidance and verbal prompting to ambulate and to evacuate the facility. The findings are: Review of the facility's current license effective 01/01/24 through 12/31/24 revealed the facility was licensed for 6 ambulatory residents. (The North Carolina Building Code defines ambulatory residents in Family Care Homes as residents able to respond and evacuate the facility without physical or verbal assistance). Observations of the facility on 12/23/24 at 8:00am revealed: -The facility had a census of 5 residents. -There were three exit doors, one located on the front of the facility, one located on the side of the facility, and one located on the back of the facility that led to a small porch area with an attached ramp.
