NAME OF PROVIDER OR SUPPLIER LAURELWOODS		STREET ADDRESS, CITY, STATE, ZIP CODE 1062 WEST MILLS STREET COLUMBUS, NC 28722			
(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)	ID PREFIX TAG	PROVIDER'S PLAN OF CORRECTION (EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)		(X5) COMPLETE DATE
D 000	Initial Comments The Adult Care Licensure Section conducted a follow-up survey from 03/04/25 to 03/05/25.	D 000			
D 273	10A NCAC 13F .0902(b) Health Care 10A NCAC 13F .0902 Health Care (b) The facility shall assure referral and follow-up to meet the routine and acute health care needs of residents. This Rule is not met as evidenced by: Based on record review and interviews, the facility failed to ensure parameters were followed for 1 of 1 sampled resident (Resident #1) related to contacting the primary care provider (PCP) for systolic blood pressure greater than 170, diastolic blood pressure greater than 90, and pulse rate greater than 90 and less than 60. The findings are: Review of Resident #1's current FL2 dated 10/24/24 revealed diagnosis included vascular dementia, history of falls, and high blood pressure. Review of Resident #1's physician orders dated 12/30/24 revealed: -There was an order to check systolic blood pressure twice daily and if it was greater than 170 to call the PCP. -There was an order to check diastolic blood pressure twice daily and if it was greater than 90 to call the PCP. -There was an order to check the pulse rate twice daily and if it was greater than 90 or lower than 60 to call the PCP. D 273	Continued From page 3 8:00am of a blood pressure reading of 149/92. Review of Resident #1's eMAR medication exception report, PCP charting notes, and nursing notes lack documentation the PCP was contacted for any of the blood pressure readings or pulse rates outside of designated parameters for January, February, and March 2025. Interview with the Resident Care Coordinator (RCC) on 03/04/25 at 12:51pm revealed: -She verified no documentation had been made that the PCP for Resident #1 was contacted about blood pressure readings and pulse rates outside of parameters for January, February and March 2025. -She thought the wrist cuff they were using may be giving staff a false high reading. -All staff had access to a standard blood pressure monitor as well as the wrist cuff and could use it if they thought they were getting an error. Telephone interview with the PCP on 03/04/25 at 1:30pm revealed: -He was unable to remember if he had been contacted about all the times Resident #1's blood pressure had been elevated and her pulse rate elevated or decreased. -He knew he had not been contacted on 03/03/25 when the last documented elevated blood pressure was 149/92. -He wrote the parameters so he could monitor her blood pressure to make changes to her blood pressure medications as needed. -She had a diagnosis of high blood pressure, so he was currently working towards changing her medications to what was most effective for her. Telephone interview with a medication aide (MA) on 03/05/25 at 8:02am revealed:	D 273

D 273	Continued From page 4 -She knew that Resident #1 had orders to have her blood pressure and pulse taken twice daily. -She was not aware of the reason Resident #1 needed to have her blood pressure and pulse taken twice daily. -She usually sends the PCP a text about blood pressure and pulse rates outside the parameters. -It was possible she sent the texts and just forgot to document it. -She also may have forgotten to notify him if she got busy. Telephone interview with a second MA on 03/05/25 at 8:10am revealed: -He knew Resident #1 had parameters for notifying the PCP when her blood pressure was too high, or her pulse was too high or too low. -He knew he was supposed to contact the PCP when her blood pressure and pulse were outside of the designated range, but he had not been contacting the PCP. Interview with the Executive Director on 03/05/25 at 8:21am revealed: -The MAs all knew they were supposed to follow resident parameters per PCP orders. -She was not aware the PCP had not been notified about Resident #1's elevated blood pressures and low and high pulse rates. -If the MAs got busy or forgot to call the PCP or document they contacted the PCP that was not okay. -She expected the MAs to notify the PCP per the written order to do so regarding blood pressures and pulse rates outside of range for Resident #1.
