E 000	Initial Comments			E 000			
K 000	A certification survey conducted on February 22, 2023 found Missouri Slope Washington in compliance with the requirements of 483.73 Long Term Care Emergency Preparedness. INITIAL COMMENTS This survey used the 2012 edition of NFPA 101, Life Safety Code, Chapter 18-New Health Care Occupancies and the 2012 edition of NFPA 99, Health Care Facilities Code in compliance with 42 CFR 483.70(a)(b). The facility was located in a four-story building of Type II (222) construction. A one-story building of Type II (000) construction was attached to the north side of the four-story building. The two buildings were separated by a wall having 3-hour fire resistance rating. The entire facility was protected with a wet automatic sprinkler system designed to meet the requirements of NFPA 13, Standard for the Installation of Sprinkler Systems. Note: Observation and records review determined the facility to be in compliance with the minimum requirements of the 2012 Life Safety Code and NFPA 99, Health Care Facilities Code.			K 000

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
