This deficient practice has the potential for all 39 (R # 1-39) residents on the census provided by the Supervisor on 07/07/17, to be at risk of injury or death if a fire was to occur and residents and staff do not know there is a fire and the alarm system is not working. The findings are:<br><br>A. On 07/12/17 at 10:45 am, during observation and interview, it was observed that the circuit breaker for the Fire Alarm System revealed, it was not mechanically protected to prevent the alarm system from being inadvertently turned off.
