	Alzheimer 's Care Standards for Safety - NAC 449.2756 Residential facility which provides care to persons with Alzheimer ' s disease: Standards for safety; personnel required; training for employees. (NRS 449.0302) 1. The administrator of a residential facility which provides care to persons with Alzheimer ' s disease shall ensure that: (e) Knives, matches, firearms, tools and other items that could constitute a danger to the residents of the facility are inaccessible to the residents. Inspector Comments: Based on observation and interview, the Administrator failed to ensure items that could constitute a danger to the residents of the facility were inaccessible to the residents. Two knives with large blades and one knife with a smaller blade were observed in an unlocked drawer in the kitchen which was accessible to residents. A Caregiver confirmed the knives were in an unlocked drawer and should have been secured and inaccessible to residents. Severity: 2 Scope: 3		The drawers that have sharp objects have locks on them. The Administrator will review NAC 449.2754 and NAC 449.2756 with staff. The House Manager will oversee the caregivers that all sharp objects are locked away.
