**RE: Survey Event ID: MAYV11**

Dear Ms. Musick:

On **May 25, 2023**, agents from our office concluded a State Licensure survey with a complaint investigation at your facility. The deficiencies found during the survey are identified on the enclosed STATE FORM.

These deficiencies represented the potential for more than minimal harm. Your facility will be given an opportunity to correct deficiencies prior to assessing penalties, however, if upon revisit your facility has not corrected the deficiencies penalties will be applied starting on May 25, 2023.

Please note the items listed in the deficiency column of the STATE FORM. You have two choices of methods to prepare the written the plan of correction (POC). The first method is to type the plan of correction and anticipated date of completion in the space provided on the right half of the STATE FORM. If additional space is needed, supplemental sheets may be attached.

The second method is to prepare your plan on the Optional Plan of Correction Template (attached). Use of the template is voluntary. It is intended to help you submit a complete and acceptable plan of correction. If you choose to use the optional template, complete one template for each deficiency cited on the STATE FORM. In the space provided on the right half of the STATE FORM, type a notation that the plan of correction is being submitted using the optional template. Copies of the form and instructions are available at:

<http://www.ok.gov/health>. This link opens the OSDH home page. To find the optional POC, **click on Protective Health** on the left side of the home page, then **click on Long Term Care** on the right side of the page. The link to the forms can be found by selecting **Long Term Care Forms** on the left menu column.

To be found acceptable by the OSDH, the plan of correction must:

- (1) Address how corrective action will be accomplished for affected residents;
- (2) Address how other residents with the potential to be affected will be identified;
- (3) Address measures or systemic changes to ensure the deficiency will not recur;
- (4) Indicate how the center plans to monitor performance to ensure corrections are sustained;
- (5) Include dates when corrective action and monitoring will be completed for each violation;
- (6) Be signed by the administrator.

Your development of the evidence referenced in item 4, above, is very important for establishing the actual date your assisted living center corrected deficiencies and achieved compliance under the Continuum of Care and Assisted Living Act. If the required evidence is available when the OSDH conducts a revisit, then the earliest date of compliance shown in the evidence can be used by the OSDH to establish the effective date of correction and compliance. However, if there is no evidence of quality assurance being implemented, the correction date can be no earlier than the date of the OSDH revisit. If the required evidence is not available, the revisit may result in a repeated deficiency statement and another plan of correction may be required.

Avoid naming individuals, business firms or brand names on the enclosed form and any attachments. The document will be a public record and any such names will be available for disclosure.

Please sign, date and return the completed form, along with any attachments, supplements and templates, to this office within ten (10) OSDH business days of your receipt of this letter. OSDH business days are Monday through Friday, excluding state holidays. Failure to submit a Plan of Correction will not delay the subsequent revisit or any other phase of the enforcement process. Please retain a copy of the completed form for your files.

In accordance with O.S. 63-1-895, you have one opportunity to dispute citations of deficient practice through an informal dispute resolution (IDR) process. *The IDR in no way is to be construed as a formal evidentiary hearing; it is an informal administrative process to discuss deficiencies.* If you choose to contest a cited deficiency, the facility must complete an IDR Request Form (ODH Form 833AL). An explanation must be listed for each disputed deficiency. An attachment is acceptable if additional space is required for the dispute explanation. The IDR Coordinator may be contacted at (405) 426-8200 or at the address below to acquire a copy of the ODH Form 833AL and the Oklahoma IDR Process for Assisted Living Centers.

The IDR request must be submitted within 10 business days from receipt of the State Form deficiency statement. This is the same requirement for submitting an acceptable Plan of Correction (PoC). Failure to submit a completed IDR Request form and supporting documentation within this timeframe waives your right to the IDR. Failure to complete the IDR timely will not delay the effective date of any enforcement action against the facility. A designee of the Department shall conduct the IDR. The IDR may be accomplished by a desk review or conducted in a face-to-face meeting. The facility shall receive written confirmation of the IDR results.

The facility must submit the completed IDR Request Form and supporting documentation under separate cover to:

- Remedy(ies) imposed by the Department,
- Alleged failure of the surveyor to comply with a requirement of the survey process;
- Alleged inconsistency of the surveyor in citing deficiencies among facilities; or
- Alleged inadequacy or inaccuracy of the informal dispute resolution process

If you have any questions regarding the IDR process, please contact the IDR Coordinator via email at [IDRCoordinator@health.ok.gov](mailto:IDRCoordinator@health.ok.gov), or telephone at (405) 426-8200.

Sincerely,

The ED/DON reported they did not identify the close contacts for other residents or staff. The ED/DON reported the facility did not identify any close contacts with high risk of exposure to the residents who tested positive. They were asked if they identified any of the close contacts the residents dined with. They reported they did not. After reviewing testing logs, the ED/DON was asked why the facility stopped testing residents after 04/17/23 for Covid-19. The ED/DON stated the ADON had left and the ball just got dropped. This Plan of Correction is prepared and executed solely as it is required by State and Federal Law. Please accept this Plan of Correction as our credible allegation of compliance.

#### REQUIRED ELEMENTS OF A PLAN

1. How will the corrective action be accomplished for those residents found to have been affected by the deficient practice?

OSDH Response: Element accepted Yes ☐ No ☐

2. How will other residents having the potential to be affected by the same deficient practice be identified?

OSDH Response: Element accepted Yes ☐ No ☐

3. What measures will be put into place or systemic changes made to ensure that the deficient practice will not recur?

OSDH Response: Element accepted Yes ☐ No ☐

4. How will the assisted living center monitor its performance to make sure corrections are sustained? Include:

- How the correction will be evaluated for effectiveness;
- How the correction will be incorporated into the center's quality assurance system; and
- How monitoring records will be kept to evidence the correction.

#### ASSISTED LIVING CENTER'S PLAN ELEMENTS

Residents who reside in the facility and consume food from the kitchen have the potential to be affected by the alleged deficient practice. All dietary employee files were reviewed and anyone without evidence of having a food service training program did complete this during survey.

Residents who reside in the facility and consume food from the kitchen have the potential to be affected by the alleged deficient practice.

Administrator/Designee will educate the Interdisciplinary team and the dietary staff that anyone who is hired for the dietary department and prepares food will attend a food service training program prior to preparing and serving food.

Administrator/Designee will monitor all new employees hired in the dietary department to assure that they have attended a food service training program prior to preparing food. Any deficient practice that is identified will be corrected immediately.

Monitoring will be taken to the quarterly QAPI committee for any further recommendations.

Copy of the monitoring will be placed in the QAPI committee book to review and evaluate effectiveness of the plan of correction and that system remains in place.

Once substantial compliance is met this monitoring will continue quarterly to assure this system is effective.

RN/Designee will perform an initial audit on all resident charts to determine any assessments that need to be completed. RN/Designee will perform random chart audits monthly to assure that assessments are completed within 14 days of admission, annually thereafter, and/or immediately following a change of condition.

Audits will be forwarded to the quarterly QAPI committee for any further recommendations.
