WAC 388-76-10015 License Adult family home Compliance required.

(1) The licensed adult family home must comply with all the requirements established in chapters 70.128 , 70.129, 74.34 RCW, this chapter and other applicable laws and regulations including chapter 74.39A RCW; and

This requirement was not met as evidenced by:

WAC 296-842-12005

Develop and maintain a written program.

(1) Develop a complete worksite-specific written respiratory protection program that includes the applicable elements listed in Table 3. The program must cover each employee required by this section to use a respirator.

Based on interview and record review, the Adult Family Home (AFH) failed to have a written respiratory program (RPP) including training on use of a respirator and fit testing for N95 respirators for 2 of 2 staff (Staff A & B). This failure placed residents at risk for exposure to communicable diseases by not having staff trained and fit tested for use of N95 respirators.

Findings included...

Review of Dear Provider Letter dated 04/30/2021 "Employer Responsibilities for Respiratory Protection Program and Provision of Personal Protective Equipment" showed the AFH is required to develop and maintain a Respiratory Protection Program. The letter also required the AFH to fit test health care workers with a N95 respirator for protection against communicable diseases.

Review of Dear Provider Letter dated 11/05/2021 "Respirator Fit Testing and Respiratory Protection Program Resource" provided resources for the AFH to develop a Respiratory Protection Program and access resources for fit testing N95 respirators.

Review for a RPP showed there was no written respiratory protection program, no documentation that training for use of personal protective equipment or fit testing had occurred for Staff A, Provider and Staff B, Caregiver.

During an interview on 06/01/2023 at 8:48AM, Staff A, Provider, stated that they did not have a respiratory protection program in place, and staff were not fit tested for N95 respirators because they believed only employed caregiving staff were required to be fit tested. Provider stated they are the only caregiver in the home.
