WAC 388-76-10265 Tuberculosis Testing Required.

(1) The adult family home must develop and implement a system to ensure the following persons have tuberculosis testing within three days of employment:

(d) Caregiver;

This requirement was not met as evidenced by:

Based on interviews and record reviews, the Adult Family Home (AFH) failed to ensure tuberculosis (TB) testing for 2 of 3 staff (Staff B and C, Caregivers) were completed as required. This failure placed residents at a potential risk of exposure to a communicable disease.

Findings included…

WAC 388-76-10280 Tuberculosis—One test.
The adult family home is only required to have a person take one test if the person has any of the following:
(1) A documented history of a negative result from a previous two step test done no more than one to three weeks apart; or
(2) A documented negative result from one skin or blood test in the previous twelve months.

On 02/21/2025, during a record review of personnel records, Staff B's AFH orientation documentation showed they were hired on 10/25/2024. No TB test records were located in the personnel records.

Record review on 02/21/2025, showed there was no TB testing documentation found for Staff C. Review of the AFH orientation documentation showed a hire date of 09/01/2021.

In an interview with Staff A, Provider, at 3:00 PM on 02/21/2025, Department Representative asked whether there was TB testing completed upon hire for Staff B and C, as no testing was located in the personnel records. Staff A stated, “[They] don’t remember” and would locate testing records, and will send them to Department Representative.

On 02/28/2025 at 2:01 PM, TB test records for Staff B showed a two-step skin test read on 02/29/2024 and 03/03/2024, with a negative result. There was no other TB testing for Staff B.

In a discussion on 03/03/2025 at 4:05PM, Staff A reported that they will be working with Staff B and C to complete current TB testing, to meet the requirement.

WAC 388-76-10165 Background checks Washington state name and date of birth background check Valid for two years National fingerprint background check Valid indefinitely.

(1) A Washington state name and date of birth background check is valid for two years from the initial date it is conducted. The adult family home must ensure:

(a) A new DSHS background authorization form is submitted to the department's background check central unit every two years for each individual listed in WAC 388-76-10161 ;

This requirement was not met as evidenced by:

Based on interview and record reviews, the Adult Family Home (AFH) failed to ensure a new Department of Social and Health Services background authorization form was

submitted to the Department's background check central unit every two years for 1 of 3 staff (Staff C, Caregiver) and 1 of 1 household member (HH1). This failure placed the residents at risk of potential harm by having unsupervised access from caregivers and a household member with unknown and verified background check results.

Findings included…

Record review of the AFH's file for background checks on 02/21/2025, showed that Staff C and HH1 had an expired Washington state name and date of birth background check. Staff C's background check (BGI) expired on 08/27/2023 and HH1's BGI expired on 10/25/2023.

In an interview with Staff A, Provider, on 02/21/2025 at 3:05 PM, discussion included Staff C's and HH1's background checks being expired. Staff A stated the expired BGI's were an oversight and would immediately be renewed.
