RE: DGG Care Home LLC # 757405

Dear Provider:

This document references Compliance Determination 62055 (Completion Date 07/07/2025).

The Department completed a full inspection of your Adult Family Home on 07/07/2025 and found that your home does not meet the Adult Family Home licensing requirements.

The department staff who did the inspection and provided consultation:

Lindsay Trent, Adult Family Home Licensors

A licenser may consult with a provider when a violation of the Washington Administrative Code (WAC) or Revised Code of Washington (RCW) is found, but it is not cited in the Statement of Deficiencies. Violations may not be cited when it is a first-time violation of statute or rule with minimal or no harm to residents. A consult does not require a follow-up visit.

Consultation:

WAC 388-76-10198 Adult family home Personnel records. The adult family home must keep documents related to staff in a place readily accessible to authorized department staff. These documents must be available during the staff's employment, and for at least two years following employment. The documents must include but are not limited to:

(2) Staff orientation and training records pertinent to duties, including, but not limited

07/07/2025

to:

- (a) Training required by chapter 388-112A WAC, including as appropriate for each staff person, orientation, basic training or modified basic training, specialty training, nurse delegation core training, and continuing education;
- (3) Tuberculosis testing results.
- (4) Criminal history disclosure and background check results as required.

On 07/02/2025, review of the Adult Family Home's personnel records showed Caregiver A's tuberculosis (a contagious bacterial infection that usually affects the lungs) testing results and the Provider's Washington State Background Check Report, Final Fingerprint Background Check Report and current safe food handling training documentation were not readily accessible to authorized department staff. The Provider sent documentation to the department showing Caregiver A's negative tuberculosis testing results and documentation of the Provider's Washington State Background Check Report, Final Fingerprint Background Check Report and current safe food handling training, prior to completion of the inspection to correct the deficiency.

You Must:

- Begin the process of correcting the deficiency or deficiencies immediately; and
- Complete correction as soon as possible.

You Are Not:

- Required to submit a plan-of-correction for the deficiency or deficiencies found.

The Department May:

- Inspect the home to determine if you have corrected all deficiencies.

You May:

- Ask for a informal dispute resolution meeting, according to the attached 'Informal Dispute Resolution' instructions; and
- Ask questions and provide written information to help clarify or dispute the deficiencies.
- Contact me for clarification of the deficiency or deficiencies found.

If You Have Any Questions:

- Please contact me at (253)208-3090.
