RE: Valley Residential Care Inc # 2379

Dear Administrator:

This document references Compliance Determination 58917 (Completion Date 05/01/2025).

The Department completed a full inspection of your Assisted Living Facility on 05/01/2025 and found that your facility does not meet the Assisted Living Facility requirements.

The department staff who did the inspection and provided consultation:

Patricia Eddy, Community Licensor
Brian Zbylski, ALF Licensor

Consultation:

WAC 388-78A-2300 Food and nutrition services.

(2) The assisted living facility must plan in writing, prepare on-site or provide through a contract with a food service establishment located in the vicinity that meets the requirements of chapter 246-215 WAC, and serve to each resident as ordered:

(a) Prescribed general low sodium, general diabetic, and mechanical soft food diets according to a diet manual. The assisted living facility must ensure the diet manual is:

(iii) Reviewed and updated as necessary or at least every five years.

This document was prepared by Residential Care Services for the Locator website.

The facility had not updated their diet manual in over five years. The facility manager verified that the manual being used was the same manual located on the regional health district website. The manager uploaded additional guidelines from the state department of health and added the content to their current manual.
