WAC 388-78A-2630 Reporting abuse and neglect.

(1) The assisted living facility must ensure that each staff person:

(a) Makes a report to the department's Aging and Disability Services Administration Complaint Resolution Unit hotline consistent with chapter 74.34 RCW in all cases where the staff person has reasonable cause to believe that abandonment, abuse, financial exploitation, or neglect of a vulnerable adult has occurred; and

This requirement was not met as evidenced by:

Based on interview and record review, the assisted living facility failed to ensure staff members reported a substantial injury of unknown cause to the department's Aging and Disability Services Administration Complaint Resolution Unit (CRU) hotline consistent with chapter 74.34 RCW in a timely manner as required by mandatory reporters for 1 of 4 sampled residents (Resident 1) reviewed. This failure placed the resident at risk for being abused and neglected.

Findings included...

RCW 74.34.035 "Reports—Mandated and permissive—Contents—Confidentiality.

(1) When there is reasonable cause to believe that abandonment, abuse, financial exploitation, or neglect of a vulnerable adult has occurred, mandated reporters shall immediately report to the department."

Review of The Assisted Living Facility Guidebook, dated February 2018, showed CRU guidelines for reporting substantial injuries of unknown source and fractures. Page 39 stated substantial injuries of unknown source, even if they do not appear to be due to abuse or neglect must be reported to the Department, because the injuries may have resulted from the failure to take preventive measures. The appendix F on page 29 stated the assisted living facility was to report suspected abuse and neglect immediately. Substantial injuries were more than superficial and required more than first aid treatments occurred in areas not generally vulnerable to trauma such as the face. Review of Appendix E on page 27 showed, "Notify the Hotline of allegations immediately or as soon as the resident is protected."

Review of Resident 1's face sheet showed the resident was admitted to the facility on [REDACTED] 2022 with diagnoses including [REDACTED]
